

- Natural Disaster Sheltering
- Hazardous Materials/CBRN Release Shelter-In-Place
- IED/UXO Protection
- Active Shooter Loose On Base (ASLOB) Actions
- Facility Evacuation

PROCEDURES FOR BLDG

Natural Disaster (Tornado)

When Warned or Directed to Take Immediate Shelter:

Ensure other facility occupants are informed to take shelter. If in a modular/non-permanent building, and time permits, relocate to a more suitable structure or permanent facility -- use good judgment! Report to the designated Natural Disaster shelter location IAW the 307 BW or Unit Sheltering Plan -- follow established procedures. **If shelter location is unknown**; get to the lowest floor level, innermost room away from windows and exterior facility walls or doors. Remain sheltered until the "All Clear" announcement is given. Report personnel status to UCC, CSS or 307 BW Command Post.

HazMat/CBRN Release

When Warned or Directed to Shelter-In-Place due to accidental/intentional Hazardous Materials or CBRN Release:

Ensure other facility occupants are informed to take shelter. Report to the designated Hazardous Materials (HazMat) Release SIP location IAW the 307 BW or Unit Sheltering Plan -- follow established procedures and/or Facility Manager or senior member instructions. **If SIP location is unknown**; get to the highest floor level, innermost room with the fewest windows and doors. Shutdown heating, ventilation and air conditioning (HVAC) systems. If an SIP Kit is not on hand, use available materials to seal cracks around doors or windows and block air supply vents to keep vapors/gases out. Remain sheltered until the "All Clear" announcement is given. Report personnel status to UCC, CSS or 307 BW Command Post.

Procedures for IED/UXO Protection, Active Shooter Loose On Base (ASLOB) and Facility Evacuation will vary. During these events; follow instructions given by competent authority.
