Pages: 6

This instruction implements Air Force Policy Directive (AFPD) 14-2, *Intelligence Rules and Procedures*. It establishes the Air Force Intelligence Personnel Training (IPT) Program and is applicable to all Air Force active, Air National Guard (ANG) and Air Force Reserve officer, enlisted, and civilian intelligence personnel assigned to Air Force intelligence functions and activities. As part of the IPT Program, this instruction establishes Initial Qualification Training (IQT), Mission Qualification Training (MQT), Specialized Training, and Continuation Training (CT) requirements for intelligence personnel to support Air Force objectives. AFI 14-202, Volume 1, *Intelligence Training*, does not apply to personnel currently on flying status.

The WICC-TDS record-keeping system referenced in this instruction holds System-of-Record Notice (SORN) number F014 AF/A2FM A, WICC-TDS. Restrictions expressed in an instruction can be made more, but not less, restrictive by supplement. The provisions of higher-level publications take precedence over lower-level publications. This policy document supports all Air Force Intelligence Training Transformation (IT2) efforts as mandated by DoD and other national policy directives.

Ensure that all records created as a result of processes prescribed in this publication are maintained in accordance with Air Force Manual (AFMAN) 33-363, *Management of Records*, and disposed of in accordance with Air Force Records Information Management System (AFRIMS) Records Disposition Schedule (RDS) located at <https://www.my.af.mil/gcss-af61a/afirms/afirms/>. The use of the name or mark of any specific manufacturer, commercial product, commodity, or service in this publication does not imply endorsement by the Air Force.

1.2.1. Submit waiver requests to this supplement through applicable training channels to AFGSC/A2X. ARC units will submit via their NAF and MAJCOM (AFRC and or NGB) to AFGSC.

1.3.2.3.1. (Added) AFGSC/A2Q will develop and maintain an Intelligence Formal Training Unit (IFTU) course to provide specialized substantive conventional and nuclear bomber and ICBM intelligence training related to primary jobs for bomber units, ICBM units, Numbered Air Forces (NAFs), Air and Space Operations Center (AOCs), Direct Reporting Units (DRUs) and AFGSC in order to fill in gaps from basic intelligence training. This course, taught at the SCI-level, will be offered four to five times annually at Barksdale AFB, Louisiana.

1.3.2.3.1.1 (Added) Intelligence personnel assigned to bomber units, ICBM units, Numbered Air Forces (NAFs), Air and Space Operations Center (AOCs), Direct Reporting Units (DRUs) prior to the transfer over to AFGSC will maintain mission qualification status and are not required to attend the IFTU; however, the intelligence personnel are encouraged to attend.

1.3.2.3.1.2 (Added) Intelligence personnel being assigned to AFGSC subordinate bomber units, ICBM units, Numbered Air Forces (NAFs), Air and Space Operations Center (AOCs), Direct Reporting Units (DRUs) and HQ Staff are required to attend the IFTU as initial qualification training. All waivers for not attending the training will be approved by AFGSC/A2.

1.3.2.4.1. (Added) AFGSC/A2 will coordinate formal courses for intelligence personnel relevant to the mission. Training may include, but is not limited to, courses at the Defense Threat Reduction Agency (DTRA), Defense Nuclear Weapons School (DNWS), Combat Targeting Course (CTC), and Intelligence Surveillance and Reconnaissance Operations Course (IROC). Additional organizations and formal courses will be added to meet mission requirements as needed.

1.3.2.4.1.1. (Added) AFGSC/A2 encourages assigned intelligence personnel to attain at least a Basic Nuclear Weapon Certificate through the Nuclear Weapons Certification Programs taught at the DNWS. Those in key positions within intelligence organizations are recommended to attain the Advanced Nuclear Weapons Certificate.

1.3.2.4.1.1.1. (Added) The Nuclear Weapons Certification Programs are designed for personnel with responsibilities dealing with nuclear weapons, nuclear weapons policy, nuclear weapons operations, and nuclear weapons surety. These certifications are particularly valuable for personnel working within the nuclear weapons enterprise such as: nuclear weapons intelligence, nuclear weapons maintenance, nuclear weapons operations, and nuclear weapons security. The certifications include on-line CBTs and in-residence classes, and range from basic to advanced nuclear weapons certificates. More information is available at <https://dnws.abq.dtra.mil/>:

1.3.2.4.1.1.2. (Added) Unit personnel will conduct familiarization visits/training with USSTRATCOM J2 and J7 to prepare for exercise scenario development tasks. Unit intelligence personnel should observe a STRATCOM strategic exercise in the Global Operations Center (GOC) as part of their training requirements.

1.3.2.4.2 (Added) AFGSC/A2XF will maintain an on-line listing of training opportunities such as COCOM Regional Joint Intelligence Training Facilities (RJITF) and on-line CBTs to include Joint Intelligence Virtual University (JIVU) and Joint Imagery Analysis Courseware (JIAC).

1.3.2.6.1. (Added) AFGSC/A2 IFTU instructors will monitor students who are not progressing satisfactorily or fail to achieve passing grades during the course. Extra study time and preparation time will be afforded to those students within reason. Students who do not pass the IFTU course will be sent back to their home unit without being designated as IQT. The individual will retake the IFTU course at a future time as determined by the individual's chain of command and course availability within AFGSC/A2.

1.3.5. (Added) External training in support of contingency, crisis and wartime tasks is required at NAFs, wings and squadrons. Intelligence staffs will develop training initiatives for missile crews, air crews, and those missile, and aircrew personnel that are deployed in support of mission tasks. Training should include crew information requirements, situational awareness, threat briefings, supporting intelligence data, systems and programs usage, and available intelligence resources.

1.3.5.1. (Added) At least annually, intelligence personnel assigned to HQ 20AF and associated missile wings, should observe a missile crew "check ride" and alert crew duties (to include pre-departure briefing, deployment, and crew changeover) for orientation purposes and to develop a familiarity and methodology in order to provide an adequate external training program. However, all Launch Control Center (LCC) visits by unit intelligence personnel will be accomplished at the discretion of the OG/CC. Intelligence personnel will not observe and/or be present when the missile crew conducts Emergency Action Message (EAM) processing or Positive Control Material (PCM) inventory.

1.3.5.2. (Added) Senior Intelligence Officer (SIO) at AFGSC wings will serve as the external intelligence training program manager. NAFs will appoint in writing an external intelligence training program manager to oversee program execution.

1.3.5.3. (Added) The unit external intelligence training operating instruction will be coordinated with any agency (e.g., Weapons/Tactics, SERE, ALS) that assists intelligence personnel in providing training to crews. This OI will also be coordinated with any agency for which intelligence provides training (e.g., Security Forces, Civil Engineers, etc.).

1.3.5.4. (Added) The unit training plan will ensure each training item is taught at least annually or as specified in the applicable AFI 14-2(MDS)V1. Specific threat systems will be listed individually in the training plan. The training plan will also list specific training objectives for each major area of intelligence training. Training methods can include, but are not limited to: threat-of-the day briefings, current intelligence briefings, academic training sessions, theater orientation briefings and weapons system videos.

1.3.5.4.1. (Added) AFGSC units will use AFTTP 3-1 and other documents identified in the AFGSC Standard Intelligence Document List (SIDL) as primary training references.

1.3.6. (Added) Internal training is required for all DRU, NAF, wing and squadron personnel with Intelligence Air Force Specialty Codes (AFSCs). In addition to conducting and supervising the AFSC skill-level (enlisted) upgrade training program, units will develop a duty position qualification and certification program for all assigned intelligence and intelligence support personnel. Design the

program to ensure personnel are assigned and certified on specific tasks and duties, in addition to the five intelligence core competencies.

1.3.6.1. (Added) Provide oversight and training of intelligence participation in unit force protection working groups.

1.3.6.2. (Added) Conduct Intelligence Staff Training (IST) IAW AFI 36-2201V3, *Air Force Training Program on the Job Training Administration*, if applicable. Ensure supervisors conduct and document an initial evaluation on every individual within 10 days of the individual reporting for duty, including individuals who change duty positions within the organization or PCA/PCS. Air National Guard (ANG) and Air Force Reserve Command (AFRC) organizations will complete the initial evaluation within 60 days of the individual reporting for duty.

1.3.7. (Added) AFGSC DRUs, NAFs, wings and squadrons will consolidate training requirements for all assigned intelligence personnel. Wings will submit unit and wing training requirements to parent NAF. NAFs will provide an annual consolidated NAF, wing and squadron Formal Training Requirements Package to the AFGSC Command Training Manager, AFGSC/A2XF. DRUs will submit directly to AFGSC/A2XF. Failure to provide the required information prevents the command from programming and budgeting required resources. Submit training requests as soon as the requirement has been identified. All units will use AF Form 3933, *MAJCOM Mission Training Request*, to request specific training slots. Unit personnel may work directly with the Command Training Manager (AFGSC/A2XF) for specific course training. ANG units will submit training requirements through ANG channels.

1.3.7.1. (Added) AFGSC/A2XF, ISR Forces, is responsible for developing the Command Intelligence Education Training Plan and policy for formal schools. A2XF will coordinate input with the AFGSC/A2Q, A2X, and A2O, as appropriate to support the development of a comprehensive program. A2XF will also collaborate with USSTRATCOM J2 and other Joint Force Command J2s to ensure AFGSC is providing forces required. AFGSC/A2 will approve final command requirements.

1.3.7.2. (Added) Supervisors should submit training requests as soon as the requirements have been identified. Active duty units will coordinate all requests for training through the wing/group SIO to AFGSC/A2XF and AFGSC/A2Q. Active duty wing/group SIOs will submit a consolidated annual training requirement using the method prescribed by AFGSC/A2XF, with a courtesy copy to AFGSC/A2Q. Failure to provide the required information prevents the command from programming and budgeting required resources and will result in the unit funding the required training. ANG units will submit annual training requirements through their Base Education and Training Manager (BETM). AFRC units will submit annual training requirements through HQ AFRC/DOI.

1.3.7.2.1. (Added) AFGSC assigned intelligence personnel who attend training funded by AFGSC/A2 will prepare an after action report (AAR) on the training to AFGSC/A2X and A2XF. A2XF will provide the AAR format.

1.3.7.3. (Added) AFGSC/A2XF is responsible for establishing command intelligence training policy, developing a command training plan, assisting units in obtaining and developing training which is required, but not locally available, validating training requirements and ensuring command intelligence personnel are familiar with training opportunities and deficiencies.

1.3.7.4. (Added) AFGSC/A2XF is the command lead for Air Education Training Command (AETC) intelligence-related Utilization and Training Workshops (U&TW).

1.3.7.4.1. (Added) AFGSC/A2XF may request highly experienced and qualified intelligence personnel (Active Duty, ANG or Reserve) from across the command to attend AETC ISR U&TW.

1.3.7.4.1.1. (Added) AFGSC/A2XF will provide the SME with supporting material and training prior to participation in the U&TW. This may be conducted in-person or electronically.

1.3.7.4.1.2. (Added) The AFGSC SME will prepare an AAR on the AETC ISR U&TW to AFGSC/A2X and A2XF. A2XF will provide the AAR format.

1.3.7.4.2. (Added) AFGSC/A2XF will coordinate the AFGSC/A2 command training requirements to be advocated by the AFGSC/A2 staff and AFGSC SMEs attending ISR U&TWs. This is to avoid anecdotal requirements to maximize AFGSC ISR requirements for limited AETC training resources.

1.3.7.4.3. (Added) AFGSC/A2XF will maintain an on-line listing of training requirements and training solutions for submission and tracking.
