Pages: 3

This publication implements Air Force Policy Directive (AFPD) 10-1, *Mission Directives*. It delineates the mission, command relationships, and responsibilities of the Air Force Reserve Aircraft Maintenance Squadrons (AMXS). It does not apply to Regular Air Force (RegAF) or Air National Guard (ANG) units. Ensure that all records created as a result of processes prescribed in this publication are maintained IAW AFMAN 33-363, *Management of Records*, and disposed of IAW the Air Force Records Information Management System (AFRIMS) Records Disposition Schedule (RDS). Contact supporting records managers as required. Refer recommended changes and questions about this publication to the Office of Primary Responsibility (OPR) using Air Force Form 847, Recommendation for Change of Publication; route AF Forms 847 from the field through the appropriate functional chain of command. This publication may be supplemented at any level, but all direct supplements must be routed to the OPR of this publication prior to certification and approval. The authorities to waive wing/unit level requirements in this publication are identified with a Tier ("T-0, T-1, T-2, T-3") number following the compliance statement. See AFI 33-360, *Publications and Forms Management*, for a description of the authorities associated with the Tier numbers. Submit requests for waivers through the chain of command to the appropriate Tier waiver approval authority, or alternately, to the Publication OPR for non-tiered compliance items.

1. Mission: The AMXS provides overall management and supervision of daily maintenance activities; tracks discrepancies, deviations, utilization and applicable flight data for each aircraft at the termination of sorties; provides support to flightline maintenance and generation activities; and ensures all mobility requirements are met. The AMXS also services, inspects, maintains, launches, and recovers assigned/transient aircraft (if applicable).

1.1. In AFRC non-standard/associated units, AMXS elements may be included in the Maintenance Squadron. Refer to AFRCMD1108, *Maintenance Squadrons*, for mission responsibilities for elements when assigned within the MXS.

2. Command. The Commander (CC) of the AMXS:

2.1. Reports to their assigned Maintenance Group Commander (mxg/cc), or equivalent.

2.2. Exercises administrative control over assigned AMXS personnel.

3. Responsibilities.

3.1. Execute commander's responsibilities as outlined in AFI 1-2, *Commanders Responsibilities*, and Squadron Commander responsibilities as outlined in AFI 21-101, *Aircraft and Equipment Maintenance Management*.

3.2. Provides oversight and execution of the AMXS mission.

4. Mobilization. AFRC forces are under the administrative control (ADCON) of AFRC/CC. When activated or mobilized (e.g. under 10 U.S.C. §§ 12301(a), 12302, 12304, 12304a, or 12304b), combatant command authority (COCOM) transfers to the combatant commander to which the forces are assigned/attached and operational control (OPCON) transfers to the operational chain of command established by that commander.

JAMES F. JACKSON, Lt Gen, USAF
Commander
