Sexual Assault Prevention & Response Office (SAPRO)

*Working together...
to act with one voice, one vision,
one response to prevent Sexual Assault*

Options for Reporting Sexual Assault

1. **Restricted Reporting** does not reveal the identities of the people involved and does not start an investigation, but the victim is offered medical care, counseling and a victim advocate to assist them throughout the process. You must contact the SARC (Hotline 24/7 987-7272), Health Care Provider, or a Chaplain for Restricted Reporting.
2. **Unrestricted Reporting** starts an investigation and gets Commanders involved as well as other appropriate agencies. Again, the victim receives medical care, counseling and a victim advocate to assist them. For Unrestricted Reporting, you may contact AF Office of Special Investigations, Commander or First Sergeant, staff judge advocate's office, the SARC or the Command Post at 501-987-1900 who will put you in touch with the proper authorities.
