

COMMANDER'S SAFETY POLICY

One Air Force, Same Fight... An Unrivaled Wingman

- ✓ **PROTECT OUR PEOPLE & ASSETS – This is our first priority!**
 - Commanders, supervisors and individuals at all levels must be aware of the serious impact accident losses have on the ability of the Wing to achieve its objectives
- ✓ **MANAGE RISK SMARTLY**
 - Make risk decisions appropriate for your level of responsibility
 - When in doubt, raise the issue through your chain of command
 - Do not accept “Accidents Will Happen”
 - They are caused by unsafe acts or conditions!

SAFETY FOCUS AREAS

- ✓ **COMMANDER – Lead and follow ferociously!**
 - Eliminate unsafe actions and environments from your operations
 - Integrate Risk Management as a common framework for decision making
 - Promote, develop and recognize good judgment at all levels
- ✓ **SUPERVISOR – The direct link between the Commander and personnel**
 - Keep your Commander informed on all operational and personal risks
 - Enforce the compliance of T.O.s , AF Instructions, and training
 - Reinforce the culture of personal safety and risk management on and off duty
- ✓ **INDIVIDUAL – This is YOUR Safety Program-Set the example!**
 - Know, understand and comply with safety standards
 - Analyze every task, on or off-duty, using Risk Management principles
 - Identify and report hazards that place you and your Wingman at risk
