This instruction implements Air Force Policy Directive (AFPD) 10-2, *Readiness*. It applies to all U.S. Air Force personnel, including, Air National Guard (ANG) and Air Force Reserve Command (AFRC). It establishes and describes the Air Force Operational Reporting (OPREP) System. It explains the purpose and gives instructions for preparing and submitting these reports. Refer recommended changes and questions about this publication to AF/A3O, 1480 Air Force Pentagon, Washington, D.C. 20330-1480, Office of Primary Responsibility (OPR) using the AF Form 847, *Recommendation for Change of Publication*. MAJCOMs are authorized to supplement this Air Force Instruction (AFI) instead of repeating instructions in separate directives. MAJCOM/DRU/FOA supplements to this instruction must be approved by AF/A3O. Once published, a copy of the MAJCOM supplement that supports or implements the OPREP-3 will be provided to AF/A3O. Requests for waivers must be submitted through the chain of command to the appropriate Tier waiver approval authority. Requests for waivers of non-tiered items must be processed through command channels to the publication OPR for consideration. Ensure that all records created as a result of processes prescribed in this publication are maintained in accordance with Air Force Manual (AFMAN) 33-363, Management of Records,

and disposed of in accordance with the Air Force Records Disposition Schedule (RDS) located in the Air Force Records Information Management System (AFRIMS). The use of the name or mark of any specific manufacturer, commercial product, commodity, or service in this publication does not imply endorsement by the Air Force.

(PACAF) This supplement applies to all Pacific Air Forces (PACAF) assigned forces. It requires Commanders to utilize the operational reporting process to inform HQ PACAF of events that warrant Commander PACAF notification (as identified in **Figure 8.1**). This publication does not apply to the U.S. Air Force Reserve or the Air National Guard and their units, unless it is a CP Association unit. Ensure all records created as a result of processes prescribed in this publication are maintained in accordance with AFMAN 33-363, Management of Records, and disposed of in accordance with the Air Force Records Information Management System (AFRIMS) Records Disposition Schedule (RDS). The reporting requirements in this directive is exempt from licensing IAW AFI 33-324, paragraph 2.11.10., The Information Collections and Reports Management Program; Controlling Internal, Public, and Interagency Air Force Information Collections. Refer recommended changes and questions about this publication to the Office of Primary Responsibility (OPR) using Air Force Form 847, Recommendation for Change of Publication; route AF Form 847 from the field through the appropriate functional's chain of command. This publication requires the collection and or maintenance of information protected by the Privacy Act (PA) of 1974. This publication may not be supplemented or further implemented. The authorities to waive wing/unit level requirements in this publication are identified with a Tier ("T-0, T-1, T-2, T-3") number following the compliance statement. See AFI 33-360, *Publications and Forms Management*, for a description of the authorities associated with the Tier numbers. Submit requests for waivers through the chain of command to the appropriate Tier waiver approval authority, or alternately, to the Publication OPR for non-tiered compliance items. The use of the name or mark of any specific manufacturer, commercial product, commodity, or service in this publication does not imply endorsement by the Air Force.

SUMMARY OF CHANGES

AFI 33-360 and AFI 90-201 tier identification and waiver requirements have been incorporated. Other major changes include: USAFE Munitions Support Squadron (MUNSS) Commander's authority expanded for OPREP release. Commander's discretion guidance clarified for incidents not covered by the Chief Staff Air Force (CSAF) OPREP-3 Reports Matrix. Air Force Service Watch Cell (AF WATCH) has been given authority to direct units to submit OPREP-3 Reports upon direction from Joint Staff (JS) and Headquarters Air Force (HAF) leadership. Pinnacle and Beeline asynchronous reporting timing criteria were updated to match standard operating procedures. Synchronous Report Body and Asynchronous Event Text formats were changed to readily identify JS and HAF leadership required information in report. OPREP-3 System Outage reporting procedures were updated to include voice reports as a tertiary method and removed USMTF formatted email option. Commanders' Situational Reporting (SITREP) requirements were updated to reflect standard operating procedures. AF SITREP subject line requirements and format has been updated. Hurricane Condition (HURCON) and Tropical Cyclone Conditions of Readiness (TCCOR) Level Reporting criteria were updated. Cyber Reporting Chapter was removed and associated requirements were captured in CSAF OPREP-3 Matrix. **This document is substantially revised and should be completely reviewed.**

(PACAF) Major changes include: a chapter for Commanders Critical Incident Reporting (CCIR) was added to ensure clear guidance for these reports. CCIR, ICC/EOC Activation, and Evacuation Reception Capability Reply/Request templates were updated to align with OPREP-3 formatting. This document is substantially revised and should be completely reviewed.

Attachment 2—OPREP-3 REPORTS GUIDE		42

Chapter 1

GENERAL CONCEPTS, POLICIES, AND RESPONSIBILITIES

1.1. Concept of the OPREP-3 System. The OPREP-3 system provides CSAF and intermediate commanders the information necessary for timely operational decisions. The main criterion for inclusion in the OPREP-3 system is essential information for command and control of aerospace forces.

1.1.1. MAJCOMs, FOAs, and DRUs will not establish OPREP-3 report rules or instruction below HAF level; however, may develop MAJCOM/FOA/DRU Commander-directed reporting requirements in order to ensure events/incidents that do not meet OPREP-3 reporting requirements are still available to the commander (1).

1.1.2. Due to the time sensitivity of OPREP-3 information, report each event/incident promptly and as accurately as possible. The **FIRST** CP having knowledge of an event/incident will report/facilitate OPREP-3 reporting (T-1). Units will not delay submission of an OPREP-3 to research whether another unit is also submitting the report (T-1). In the case of multiple OPREP-3 submissions, the AF Watch will decide if multiple units will continue submitting or if one unit will continue all follow-up reporting based on information received (T-1).

1.1.3. Units at all levels will develop procedures to quickly obtain and report the key elements of an AF OPREP-3 (T-3). Installations hosting multiple units (assigned to different MAJCOMs, sister services, detachments) should include OPREP-3 reporting requirements in the Host-Tenant Support Agreement (HTSA). When a HTSA is not feasible, a Memorandum of Agreement (MOA) should be used to capture ORPEP-3 reporting processes for each unit. All Air Force units, to include Geographically Separated Units (GSUs), will comply with MAJCOM guidance and this instruction (T-1).

1.1.4. Air Force component commanders within combatant commands, Joint Bases (JB) or Joint Task Forces (JTF) will develop written guidance to ensure compliance with this instruction within their command and de-conflict with combatant, JB, or JTF command directives (T-2).

1.1.5. Authority. This instruction includes the requirements of the various documents of the Joint Reporting Structure (JRS). Air Force units will use AFI 10-206 as the primary source for reporting instructions (T-1).

1.2. Responsibilities.

1.2.1. HQ USAF AF/A3O will:

1.2.1.1. Develop and provide AF operational reporting guidance.

1.2.1.2. Annually, review new requirements to determine operational necessity

1.2.1.3. Develop HAF self-assessment checklist (SAC) identifying AFI 10-206 tiered items.

1.2.2. HQ USAF AF/A3O-OA (AF Watch) will (T-1):

1.2.2.1. Be the subject matter experts for OPREP-3 processing.

1.2.2.2. Coordinate OPREP-3 Reports Matrix updates and changes with CSAF/SECAF, as required.

1.2.2.3. Maintain the capability to continuously monitor and process reporting information from Jabber, email, phone, and SKIWeb.

1.2.2.4. Distribute information received to HAF/Secretary of the Air Force (SAF) agencies.

1.2.3. HQ Air Force Space Command (AFSPC) Command Center will:

1.2.3.1. Report all 24 AF/CC declared communications/computer systems intrusions (single or multiple installation) via OPREP-3 to the AF Watch.

1.2.3.2. Identify and report communication outages/failures affecting multiple installations via OPREP-3 to the AF Watch.

1.2.4. MAJCOMs, DRUs, and FOAs will (T-2):

1.2.4.1. Develop instructions to ensure timely and accurate OPREP-3s are reported within established timelines (see Table 3.1).

1.2.4.2. Review requirements annually to determine operational necessity.

1.2.4.3. Maintain current Defense Connect Online (DCO) and SKIWeb accounts to facilitate OPREP-3 reporting.

1.2.4.4. Develop procedures to continuously monitor the af.watch Jabber room for pertinent information and OPREP-3s. Units will use an audible alert to notify controllers that a message has been received for action (T-3).

1.2.5. **(Added-PACAF)** PACAF A3/6TC will (T-2, unless indicated otherwise):

1.2.5.1. **(Added-PACAF)** Develop and provide PACAF CCIR reporting requirements.

1.2.5.2. **(Added-PACAF)** Annually review new requirements to determine operational necessity.

1.2.5.3. **(Added-PACAF)** Update the CCIR Reports Matrix, as required.

1.3. Commanders will (T-3) (unless indicated otherwise):

1.3.1. Ensure timely and accurate reporting for all events/incidents that meet Chairman, Joint Chiefs of Staff (CJCS) and CSAF reporting criteria for all assigned or attached units, as well as events/incidents that occur on or near their installation or affecting mission (see Table 3.1.) (T-0).

1.3.2. Ensure HTSAs or MOAs outline OPREP-3 procedures between organizations. Agreements will outline procedures to ensure the installation CP is made aware of all events/incidents occurring on or affecting their installation. Established HTSAs/MOAs should not delay the submission of OPREP-3 reports by CP.

1.3.3. Ensure that OPREP-3 reports are released by the host wing commander, when host installation resources are utilized. Air Reserve Component (ARC) commanders retain approval authority until federally mobilized, when host installation resources are not utilized.

1.3.3.1. USAFE Munitions Support Squadron (MUNSS) Commanders are authorized to release OPREPs on behalf of the wing commander.

1.3.4. Ensure events/incidents meeting OPREP-3 reporting criteria (CSAF OPREP-3 Reports Matrix) are up channeled to the AF Watch (T-1).

1.3.4.1. Submit an OPREP-3 (Commanders Discretion) when, in the opinion of the commander, an event/incident does not fall into a CSAF rule, but is significant enough to report to HAF.

1.3.5. **(Added-PACAF)** Ensure timely and accurate reporting for all events/incidents that meet PACAF CCIR reporting criteria for all assigned units.

1.4. Wing/Unit CPs will (T-3, unless otherwise directed):

1.4.1. Ensure procedures are in place to train commanders (wing, group, squadron, tenant, sister services, etc.) and First Sergeants on OPREP-3 processes and requirements. Training should include as a minimum:

1.4.1.1. The OPREP-3 System

1.4.1.2. CSAF OPREP-3 Reports Matrix

1.4.1.3. Information releasable in OPREP-3s

1.4.1.4. OPREP-3 timing criteria

1.4.1.5. Tenant commander responsibilities

1.4.1.6. **(Added-PACAF)** PACAF CCIR reporting requirements

1.4.1.7. **(Added-PACAF)** PACAF CCIR timing criteria

1.4.1.8. **(Added-PACAF)** PACAF CCIR Reports Matrix

1.4.2. Be responsible for providing commanders the necessary information to facilitate an informed decision and submit timely OPREP-3s using the CSAF OPREP-3 Reports Matrix.

1.4.3. Ensure installation/wing commanders are informed of all OPREP-3 reported incidents by a tenant organization. Notification of commanders will not delay OPREP-3 submission.

1.4.4. Maintain and update the OPREP-3 portion of the HTSA or Memorandum of Agreement/Understanding (MOA/MOU) based on the wing's scheduled review and IAW AFI 25-201 Intra-Service, Intra-Agency, and Inter-Agency Support Agreements Procedures.

1.4.5. Ensure that all certified controllers maintain active synchronous (Jabber)/asynchronous (SKIWeb) accounts to submit OPREP-3.

1.4.6. Monitor *af.watch* jabber room continuously (24/7) for Higher Headquarter (HHQ) reporting information requests, requirements, and/or notifications (T-2).

1.4.7. Notify the home-station CP and MAJCOM Command Center of any incidents involving that CP's/command's assets.

1.4.8. **(Added-PACAF)** As necessary, create MOUs/MOAs with tenant units. Agreements should outline procedures to ensure the installation command post is made aware of all events/incidents occurring on or affecting their installation.

1.4.9. **(Added-PACAF)** Be responsible for providing commanders the necessary information to facilitate an informed decision and submit timely CCIR reports using the CCIR Reports Matrix.

1.4.10. **(Added-PACAF)** Monitor the “pacaf.commandcenter” jabber room continuously **(T-2)**.

1.4.11. **(Added-PACAF)** Maintain training documentation for Commanders and First Sergeants until the end of their tenure. Documentation should include the date the individual received training.

1.4.12. **(Added-PACAF)** Ensure installation/wing commanders are informed of all CCIR reported incidents by a tenant organization. Notification of commanders will not delay CCIR submission.

1.4.13. **(Added-PACAF)** The PACAF Command Center (PCC) is responsible for the same requirements as wing/unit CPs, with the exception of paragraphs 1.4.7. and 1.4.8.

1.4.14. **(Added-PACAF)** Consolidated CP locations will adhere to AFI 10-206, AMvC Sup and CCIR reporting requirements, in addition to the PACAF requirements **(T-2)**.

Chapter 2

GENERAL REPORTING INSTRUCTIONS

2.1. Security Classification and Downgrading Instructions. AFI 31-401, *Information Security Program Management*, provide security classification and downgrading instructions.

2.1.1. OPREP-3s will be classified according to content(T-0). If OPREP-3s contain any of the following content, the report will be classified a minimum of SECRET (T-0):

2.1.1.1. Indicators of unit readiness data. Data extracted from the Defense Readiness Reporting System (DRRS)/Global Status of Resources and Training System (GSORTS) database is classified by the reporting organization or IAW AFI 10-201, Status of Resources and Training System (SORTS) or the CJCSM 3150.02 Series, *Global Status of Resources and Training System (GSORTS)*, whichever is higher.

2.1.1.2. Unit Mission Essential Tasks (MET), as captured in AFI 10-252, *Defense Readiness Reporting System*.

2.1.1.3. Events/incidents of confirmed or suspected compromise of classified information according to content, IAW AFI 31-401, *Information Security Program Management*.

2.1.1.4. Classify information commensurate with the classification of the equipment, incident/event, and governing instructions if not identified above.

2.1.2. Do not over-classify reports. All reports transmitted over Secure Internet Protocol Router Network (SIPRNET) must have proper classification markings (T-0).

2.1.3. **(Added-PACAF)** Units will determine if information should be classified by inquiring with the owner of the asset(s) involved **(T-3)**.

2.2. Transmitting Reports During Combat or Combat-Related Operations. When combat or combat-related operational requirements make speed of delivery paramount, military commanders may modify transmission of classified information as necessary to meet local conditions.

2.3. Directed Reporting. AF Watch, when directed by HAF/JS leadership, may direct a unit to submit an OPREP-3 on a significant event/incident.

2.3.1. AF Watch may suspend reporting for a unit when they are in a degraded communications environment.

2.4. Correction of Reports. Originators will make all corrections identified during synchronous reporting to the asynchronous report (hard copy) (T-1). Submit corrected reports through synchronous reporting and obtain AF Watch acknowledgement prior to correcting in an asynchronous report (T-1). The originator will submit a correction if an error is noticed in content (e.g., incorrect facts, incorrect timing), after submitting the report (T-1).

Chapter 3

EVENT/INCIDENT REPORT (OPREP-3)

3.1. Subject and Purpose. Air Force Commanders use OPREP-3s to immediately notify Higher Headquarters (HHQs) of any significant event or incident that rises to the level of DoD, CJCS, Combatant Command (COCOM), or service-level interests. Prior to mobilization/activation AF, ANG, and AFRC units will address the AF Watch on all applicable record copy OPREP-3. CPs will submit the applicable OPREP-3 regardless of whether or not the event is being reported through other channels (T-0). OPREP-3s do not replace the requirement for more detailed reports such as the SITREP, and other directorate's accident or incident investigation reports. Submitting an OPREP-3 does not change, nor is it a substitute for, any report required by other directives. Real-world OPREP-3s take priority over exercise events.

3.2. Reporting Categories. CJCSM 3150.03D, *Joint Reporting Structure Event and Incident Reports*, categorizes events or incidents according to their nature with a FLAGWORD. FLAGWORDS (i.e., NUCFLASH, BENT SPEAR) associated with each category aid prompt processing and distribution of the reports by alerting people to their importance. The following FLAGWORDS identify reports within the CJCSM 3150.03D:

3.2.1. PINNACLE (OPREP-3P). This report is used by any unit to provide the National Military Command Center (NMCC) and, as appropriate, combatant commands and services, with immediate notification of any incident or event where national or international level interest is indicated. OPREP-3Ps are not restricted to operational information. Any inadvertent, accidental, unauthorized, or unexpected event or incident will be upgraded from an OPREP-3B to an OPREP-3P if (T-0):

3.2.1.1. The occurrence generates a higher level of military action

3.2.1.2. The occurrence has national-level interest

3.2.1.3. The occurrence affects international relations and/or is clearly against national interests or affects national policy

3.2.1.4. Causes immediate widespread coverage in news media (national or international)

3.2.2. PINNACLE NUCFLASH (OPREP-3PNF). Used to report an event, accident, or incident that could create the risk of a nuclear war. This report has the highest precedence in the OPREP-3 reporting structure. Report any of the following as an OPREP-3PNF (T-0):

3.2.2.1. Ballistic missile launch or space launch

3.2.2.2. Re-entering space objects

3.2.2.3. Loss, potential loss, or degradation of U.S. military space capability when the loss or degradation is because of actions by a suspected or known hostile source.

3.2.2.4. Reports of cruise missiles detected and/or launched against the U.S. or U.S. interests

3.2.2.5. Accidental, unauthorized, or unexplained incident involving possible detonation of a nuclear weapon producing a nuclear yield

3.2.2.6. Unauthorized flight, or deviation from an approved flight plan, by a U.S. nuclear-armed or nuclear-capable aircraft with the capability to penetrate the airspace of another nuclear-capable country

3.2.3. PINNACLE FRONT BURNER (OPREP-3PFB). Used to report pre-conflict occurrence of armed attack, harassment, or hostile action against U.S. forces, territory, or interests. After the OPREP-3PFB has been submitted for a specific hostile situation, subsequent OPREP-3P reports are not required. Subsequent reporting of significant mission degradation or heavy losses, combat events and minor airfield damage resulting from the armed attack, harassment, or hostile action is reported in the SITREP.

3.2.4. PINNACLE BROKEN ARROW (OPREP-3PBA). Used to report a U.S. nuclear weapon accident that does not create the risk of a nuclear war. Report any of the following as an OPREP-3PBA (T-0):

3.2.4.1. Nuclear detonation of a U.S. nuclear weapon

3.2.4.2. Non-nuclear detonation or burning of a U.S. nuclear weapon

3.2.4.3. Radioactive contamination from a U.S. nuclear weapon or component

3.2.4.4. Jettisoning of a U.S. nuclear weapon or component

3.2.4.5. Public hazard, actual or implied, from a U.S. nuclear weapon or component

3.2.5. PINNACLE EMPTY QUIVER (OPREP-3PEQ). Used to report the seizure, theft, or loss of a U.S. nuclear weapon.

3.2.6. PINNACLE EMERGENCY DISABLEMENT (OPREP-3PED). Used for reporting operations involving the command disablement or non-violent disablement of U.S. nuclear weapons.

3.2.7. PINNACLE EMERGENCY EVACUATION (OPREP-3PEV). Used to report operations involving the emergency evacuation of U.S. nuclear weapons.

3.2.8. OPREP-3 WHITE PINNACLE (OPREP-3WP). OPREP-3WP is an exercise report that contains simulated time-critical information from operating forces to the NMCC and COCOMs. OPREP-3WP exercises use OPREP-3P procedures and are downward directed by the COCOM to check timeliness of select CPs and other designated Command and Control (C2) nodes.

3.2.8.1. COCOMs designate the units to receive the exercise message and select specific exercise start times. Upon receipt of an OPREP-3WP tasking, units are required to submit an OPREP-3WP acknowledgement report to the NMCC via synchronous (Jabber) means (T-0). The time standard is 20 minutes (T-0).

3.2.8.2. CPs transmit OPREP-3WPs in the same fashion as OPREP-3Ps. Units will transmit an OPREP-3WP to the “af.watch” Jabber room using the format in Figure 3.1. (T-1). Upon receipt, AF Watch controllers immediately relay the OPREP-3WP to the NMCC “dod_njoic” Jabber room (T-0).

Figure 3.1. WHITE PINNACLE Format

<p>(U) OPREP-3WP, Transmission DTG, Unit, Location, State</p> <p>A. Unit Tasked:</p> <p>B. Location:</p> <p>C. Tasking COCOM:</p> <p>D. Tasking MSG DTG:</p> <p>E. Time of Receipt:</p> <p>F. Unit Tasked: 911 AW</p> <p>B. Location: Pittsburgh IAP/ARS, PA</p> <p>C. Tasking COCOM: USTRANSCOM</p> <p>D. Tasking MSG DTG: 251445ZDEC2014</p> <p>E. Time of Receipt: 251448ZDEC2014</p> <p>F. Delays or Tracer Action or N/A: N/A</p>
--

3.2.9. OPREP-3 BENT SPEAR (OPREP-3BS). Used to report incidents involving U.S. nuclear weapons that are of significant interest, but are not categorized as OPREP-3PNF or OPREP-3PBA. OPREP-3BSs use the same timing requirements as OPREP-3Ps.

3.2.10. OPREP-3 FADED GIANT (OPREP-3FG). Used to report nuclear reactor or radiological accidents or incidents to the appropriate service headquarters. OPREP-3FGs use the same timing requirements as OPREP-3Ps.

3.2.11. BEELINE (OPREP-3B). Used to report any event or incident that the CSAF has deemed reportable in the CSAF OPREP-3 Reports Matrix and/or meets AF-level interest, but does not meet national or international level interest requirements

3.3. Reports Guidebook. The Non-Commissioned Officer in Charge (NCOIC) of Reports has the responsibility to maintain the Reports Guidebook. This guide provides a quick reference to assist CP controllers in submitting OPREP-3s and other reports, as applicable. The Reports Guidebook will include(T-3):

3.3.1. Current CSAF OPREP-3 Reports Matrix. The CSAF OPREP-3 Reports Matrix is a quick reference list to assist commanders and controllers in determining the level and type of report to submit based on events and incidents deemed of interest to the CSAF, CJCS, and Secretary of Defense (SECDEF). Due to the need for reporting requirements to be updated as operational situations evolve and as AF/A3O or higher directs, the CSAF OPREP-3 Reports Matrix will be posted on the CP Intelink Site. When the matrix is updated or changed, CPs will be notified of changes in a Command and Control Controller Information File (C2 CIF).

3.3.1.1. **(Added-PACAF)** Current PACAF CCIR Report Matrix. The PACAF CCIR Reports Matrix is a quick reference listing of events and incidents deemed of interest to Commander, Pacific Air Forces (COMPACAF).

3.3.2. The Contact Addressees List, (located on the CP Intelink Sites under Reports Library) contains the core recipients for OPREP-3s. The Contact Addressees List has been provided

to assist during times of system inoperability. Units will ensure that affected HQs receive the report, regardless of how the report is transmitted (T-1). During routine operations, units will select applicable HQs based on situation, chain of command (COCOM, MAJCOM, etc.), as well as “Affected Areas” from the event/incident when adding an event into SKIWeb (T-1). AF Watch will be selected as an “Affected Area” in SKIWeb on all OPREP-3s (T-1). Units may add additional contact information to the Reports Guidebook, as required.

3.3.3. OPREP-3 Reports Guide. The OPREP-3 Reports Guide (Attachment 2, Figure A2.1.) is a list of minimum routine questions that need to be answered when including data into an OPREP-3.(T-3)

3.3.4. Checklists contain step-by-step procedures to ensure required reports are submitted in the proper format, within established timelines, and with the correct content.(T-3)

3.3.4.1. **(Added-PACAF)** Checklists will include the following, as a minimum **(T-2)**:

3.3.4.1.1. **(Added-PACAF)** PINNACLE (OPREP-3P)

3.3.4.1.2. **(Added-PACAF)** BEELINE (OPREP-3B)

3.3.4.1.3. **(Added-PACAF)** Commander's Situation Report (SITREP)

3.3.4.1.4. **(Added-PACAF)** Commanders Critical Information Requirements (CCIR)

3.3.4.2. **(Added-PACAF)** The following hard copy formats will be maintained, as a minimum **(T-2)**:

3.3.4.2.1. **(Added-PACAF)** OPREP-3P

3.3.4.2.2. **(Added-PACAF)** OPREP-3B

3.3.4.2.3. **(Added-PACAF)** SITREP

3.3.4.2.4. **(Added-PACAF)** CCIR

3.3.4.2.5. **(Added-PACAF)** Evacuation Reception Capability Request

3.3.4.2.6. **(Added-PACAF)** Evacuation Reception Capability Reply

3.3.4.2.7. **(Added-PACAF)** Installation Control Center (ICC)/Emergency Operation Center (EOC) Activation Message

3.3.5. **(Added-PACAF)** Complete copies of other MAJCOM supplements appropriate to installation tenant units will be maintained in the functional publications library for controller reference **(T-3)**.

3.4. OPREP-3 Report Timing Requirements. Units will use Table 3.1. for synchronous (Jabber)/asynchronous (SKIWeb) timing requirements (T-1). When a qualified/certified specialist must be consulted to determine if an OPREP-3 event/incident has occurred, according to CSAF OPREP-3 Reports Matrix requirements (e.g., weapons maintenance on a weapons outage, medical provider for confirmation of death), timing standards will begin from CP notification of the determination rather than incident, IAW Table 3.1 (T-1).

Table 3.1. Timing Criteria

Type of Report	Synchronous Report/Voice Report Timing (IAW Paragraph 3.6.)	Asynchronous Report/Record Copy Timing (IAW Paragraph 3.7.)
*PINNACLE NUCFLASH	5 minutes from incident	1 hour from incident
PINNACLE/BEELINE	15 minutes from incident	1 hour from AF Watch approval time
*NOTE: PINNACLE Nuclear Flash reports are extremely time sensitive and require initial reporting <u>within 5 minutes of the incident (T-0).</u>		

3.5. Report Construction. Units should develop processes that enable the correct and expedient transmission of reports via synchronous, asynchronous, and alternate means of communication. Synchronous Reports are transmitted via DCO Chat Client, more commonly known and referred to as “Jabber”. Asynchronous reports are posted on a SIPRNET blog site named SKIWeb.

3.5.1. OPREP-3 Message Subject Line. Regardless of transmission medium, all OPREP-3 subject lines will be constructed in the following manner (T-1):

3.5.1.1. Portion Marking. All subject lines will contain a portion marking for the classification of the subject line. The subject line portion marking (U, C, S, S/NF, etc.) does NOT identify the overall classification of the report, only the subject line (T-0).

3.5.1.2. Report FLAGWORD (OPREP-3P, OPREP-3PFB, OPREP-3B, etc.).

3.5.1.3. DTG of Incident. This time should be when the incident occurred, not when the incident became reportable. Clarification can always be provided in the narrative to explain DTG if incident occurred several days prior to a report. The DTG will not change as subsequent reports are submitted.

3.5.1.4. Location Event Occurred. This is the location of the incident or where the event took place. This may not be the same location as a military installation. Do not narrow the location beyond or below city/base level.

3.5.1.5. Event/Incident and Rule Number. Used to identify the incident listed in CSAF OPREP-3 Reports Matrix and the corresponding rule number.

3.5.1.6. Example Subject Line: (U) OPREP-3B, 251458ZDEC2014, Cheraw, SC, Criminal Activity, Rule 9L

3.5.2. Report Body (Jabber) or Event Text (SKIWeb). The body of the report narrative includes the who, what, when, where, how, and operational impact of the incident. In the initial report, report as much information as possible that is known at the time. Include new information as details unfold. In subsequent reports, do not restate previously stated facts. Regardless of transmission medium, all OPREP-3 narrative (event text) will be constructed in the following manner (see Figure 3.2. for example) (T-1):

3.5.2.1. Report Type: Initial, Initial/Final, Follow-Up, Final, and Corrected Reports.

3.5.2.2. Time and Date: Time of Incident in HHMMZ, DD Mon YY format.

- 3.5.2.3. Unit: Include CP Designator for Unit/Wing/Installation submitting the OPREP.
- 3.5.2.4. Member: Include member information including age, gender, rank, and military status (REGAF or ARC), Unit, etc. Use N/A for reports that do not require an ETIC.
- 3.5.2.5. Details: In narrative, sentence case format, include the who, what, when, where, and how the event/incident occurred. When aircraft are involved be sure to include MDS, tail numbers, assigned units, mission numbers, etc.
- 3.5.2.6. Mission Impact/Impairment (if applicable). This section of the report should identify how the event or incident impacts the unit/wing/installation mission (individual squadron/duty section impact is not required). Use N/A for reports that do not impact mission.
- 3.5.2.7. Estimated Time in Commission (ETIC): Identify the estimated time a situation will end, a weapon system is expected to return to service, or repair will be complete. Use N/A for reports that do not require an ETIC.
- 3.5.2.8. Point of Contact. This is used after consulting and confirming with the appropriate external agency/agencies and informing them that further reports will be accomplished through their channels, include agency office symbol and 10-digit DSN number. This may be used for Final Reports (including Initial/Finals); use N/A for this line for all other report types (Initials/Follow-Ups/Corrections).

Figure 3.2. Report Body Example

(U) Initial/Final:
 (U) Time and Date: 1458Z, 25 Jan 14
 (U) Unit: 20th Fighter Wing
 (U) Member(s): 25 y/o male, Capt (REGAF), AFCENT/A4
 (U) Details: Member was indicted in December 2013 on two counts of vehicular manslaughter. Individual plead guilty and will begin a two year prison sentence on 26 January 2014. Local media attention occurred.
 (U) Mission Impact: N/A.
 (U) ETIC: N/A
 (U) POC: Maj John Hopkins, DSN 123-4567

3.5.3. Initial and Initial/Final reports. Initial and Initial/Final reports should contain as much information as immediately available within established time parameters about an event or incident. Both reports will be submitted IAW Paragraph 3.6. An Initial report may only be submitted as an Initial/Final report if it contains all of the required information to close the report. The AF Watch will ask questions during initial reporting to get clarification and/or prompt units to get information required by HHQ to post in the record copy or Follow-Up reports. Information requested by AF Watch, MAJCOM, and/or JS during synchronous reporting will be provided in an asynchronous report when the information becomes available (T-1). Both reports are posted in Jabber prior to posting in SKIWeb (T-1).

3.5.3.1. If seven calendar days have elapsed from the Initial report and these questions are not answered, a Final OPREP-3 will be submitted stating that “No further information

will be provided through OPREP-3 channels” (T-1). Identify approved points of contact (POC), agency/agencies, and contact number(s) (T-1).

3.5.3.2. The statement “Further reporting through XXX channels.” will only be used after consulting and confirming with the appropriate external agency/agencies, that further reports will be accomplished through their channels, include agency office symbol and contact number. This statement is not a blanket statement. The statement will be included in the Event Detail line (T-1).

3.5.3.3. When events/incidents occur which overlap multiple rule numbers, units will combine them and submit one OPREP-3 (T-1). If multiple rule numbers specify different types of OPREPs, i.e., BEELINE, PINNACLE, units will submit the highest type report (T-1). For OPREP-3s with multiple rule numbers, only one rule number and title will be reflected in the subject line; use the most severe incident in the subject line and identify additional rule numbers at the end of the Event Detail section of the synchronous (Jabber)/asynchronous (SKIWeb) report (i.e., Rules XX, XX and XX also apply.) (T-1).

3.5.4. Follow-Up Reports. These reports are essential to keep commanders informed of developing situations and to provide additional details as they are learned. Follow-Up reports will be submitted IAW Paragraph 3.6 (T-1). Follow-Up reports are posted in Jabber PRIOR to posting in SKIWeb.

3.5.5. Final reports provide required information not previously reported and close event/incident reporting. All Final reports will end with the applicable statement, “No further information will be provided through OPREP-3 channels” in the Event Detail section (T-2). Reports are not authorized to be closed prior to answering questions from the querying HHQ element (T-2). Final reports are posted in Jabber PRIOR to posting in SKIWeb (T-2).

3.5.6. Upgrading OPREP-3s. Units will upgrade OPREP-3Bs if follow-up information to an event/incident meets the criteria of a higher-level report (e.g., BEELINE to PINNACLE) (T-1). In the upgraded Initial report, provide all previously reported information and known facts. The DTG for the subject line of the upgraded report will be the time the information was received that made the report a PINNACLE (T-1). The upgraded report will reference the original report’s DTG (T-1). The original (lower-level) report automatically closes upon submission of the upgraded (higher-level) report.

3.5.6.1. MAJCOM-level reports (e.g., Commander’s Critical Information Requirements [CCIR] or equivalent) are not OPREP-3s and will not follow “upgrading OPREP-3” guidance (T-1). When information from a MAJCOM report meets OPREP-3 criteria, the report will be submitted as an Initial OPREP-3 (T-1).

3.6. Synchronous reporting processes. Synchronous communication is where all parties involved in the communication are present at the same time (an event). The primary medium for transmitting all OPREP-3 synchronous reports is SIPRNET Jabber. The alternate means for submitting a synchronous report is secure phone through the MAJCOM to the AF Watch. Tertiary means is SIPRNET email. **Do not delay** the initial Jabber notification to obtain additional information. The initial Jabber notification time is the time inputted into the system. Use Follow-Up notifications and reporting to provide additional information as it becomes

available. AF Watch/MAJCOMs assess unit reports for possible higher category reporting requirements.

3.6.1. Units submitting an OPREP-3 Jabber report will enter it into the “af.watch” room. See Paragraph 3.5. for proper report construction (T-1). Units will be logged in to Jabber as “Unit (Rank/Name)” (T-2).

3.6.2. AF Watch and MAJCOM Command Centers will acknowledge wing/unit reports within 5 minutes of the posting (T-2). Acknowledgement can be in any hierarchy order. In the event that a HHQ element does not acknowledge within 5 minutes, the wing/unit will contact their parent MAJCOM Command Center for assistance (T-2). HHQs will then provide acknowledgement through Jabber. AF Watch is the highest level of required acknowledgement regardless of report type.

3.6.2.1. AF Watch will make an initial acknowledgement of “AFSWC Acknowledges Receipt, Standby” (T-1). Units will continue to monitor the af.watch room after submitting a report until both the MAJCOM and AF Watch have received required information (T-1). Units will NOT submit their asynchronous report until cleared by the AF Watch (T-1). The AF Watch clears units by entering the phrase: “AF has no further questions, post your report in SKIWeb within 1 hour and notify this office once it is posted”. This serves as the official AF approval time. Units will make corrections (if any), include information requested by AF Watch and MAJCOMs, and post the report in SKIWeb (T-1).

3.6.3. AF Watch immediately relays OPREP-3Ps to the NMCC without delay or questions (T-0). Once the PINNACLE report is posted, the AF Watch and MAJCOM may ask questions or get clarification on the situation.

3.6.4. Units may submit exercise OPREP-3s to the AF Watch at any time using the “AF.Exercise” Jabber room. When mission dictates, the AF Watch attempts to reply to exercise messages and provide feedback on reports submitted. All exercise reports must state “EXERCISE” at the beginning and end of the report.

3.6.4.1. **(Added-PACAF)** Units may submit exercise OPREP-3s in the “pacaf.exercise” jabber room. “EXERCISE DO NOT TRANSMIT” should be annotated at the beginning and end of the report to preclude inadvertent transmission of local exercise messages.

3.7. Asynchronous Reports. Asynchronous communication does not require that all parties involved in the communication be present and available at the same time. Examples of this include email (the receiver does not have to be logged on when the sender sends the email message), discussion boards, which allow conversations to evolve and community to develop over a period of time. Units will submit an asynchronous report using SKIWeb for all OPREP-3s (T-1).

3.7.1. Reports should contain (as known at the time) the who, what, when, where, how, operational impact, media applicability, and other pertinent information of the event/incident being reported based on available information. Units will include any updated information gathered after the initial Jabber notification without exceeding the time criteria (T-1). Do not delay asynchronous reporting to obtain additional information (T-1).

3.7.1.1. Appropriate Report Content. While the narrative section of each report must clearly convey the details of the incident, reports will not be personally identifiable to an individual (T-0). To ensure anonymity, reports may contain:

3.7.1.1.1. Rank, age, gender, marital status, number and age of dependents, duty status (e.g., active duty, ARC [whether on orders or not], DoD civilian status), and assigned unit/agency.

3.7.1.1.1.1. **(Added-PACAF)** For ARC member status, report whether the individual is/was on either Title 32 (State) or Title 10 (Federal) orders. Identify members as activated (Title 10 orders) or other status (Title 32, IDT, not on orders, etc.) and/or Traditional, IMA, AGR, or ART, etc.

3.7.1.1.2. Names cannot be included in OPREP-3s, except for the following: Name, title, and 10-digit DSN number of a POC for a report (Civilian Personnel, Safety, SFS, etc.), name of a public figure whose death occurs on an Air Force installation, or the name of a deceased/retired AF VIP (i.e., flag officer or Chief Master Sergeant of the Air Force [CMSAF]).

3.7.1.1.3. Aircraft type, tail number, owning unit, aircrew unit and squadron, type mission, and mission number for all reports involving AF owned, contracted, or operated aircraft.

3.7.1.2. Inappropriate Report Content. Although the narrative section of each report must clearly convey the details of the incident, it will not include (T-1):

3.7.1.2.1. Any speculation regarding responsibility, failure of equipment or facilities, legal liability, or causes (except when the cause of death is known).

3.7.1.2.2. Quotations or opinions from witnesses or other privileged sources.

3.7.1.2.3. Use of personally identifiable information to include name (see exceptions above), social security number (SSN), or home address. If HHQ requires names/SSN, they will request it as an addendum separate from the OPREP-3, and even then, only the last 4 digits of the SSN will be provided.

3.7.2. SKIWeb Corrected reports will be sent when factual data needs to be corrected (T-1). Corrected reports should be entered into SKIWeb by selecting the “Add a Blog” feature. OPREP-3 Corrected reports should be in sentence case. The first line of the Corrected report, in the Event Detail line, should state: “Correction to OPREP-3 B/P DDHHMMZMMMYYYY report”. Retyping the report is not the intent. Include only corrected information, but enough to aid the reader in understanding what was corrected.

3.7.3. **(Added-PACAF)** Units will send a copy of all OPREPs to the PCC pcc.eacell@hickam.af.smil.mil, the Parent NAF Command Center, and the owning MAJCOM Command Center (i.e. ACC, AMC, ANG) and/or owning unit command post, if applicable, via SIPRNet e-mail **(T-3)**.

3.7.4. **(Added-PACAF)** Units in receipt of any USPACOM Subordinate Command (i.e. SOCPAC, ALCOM, USFJ, USFK) OPREP-3 will forward a copy to the PCC via SIPRNet e-mail **(T-2)**. 3.7.5. (Added) Asynchronous reports will be maintained either electronically (removable storage, local network drives, etc.) or in printed record copy, relying on SKIWeb database is not authorized. IAW AF RDS, T 10-10R 04.00, Controller Training Records

Event/Incident Reports (Operations Report [OPREP]-3H/B/P), reports will be retained for one year (T-3).

3.8. Synchronous (Jabber)/Asynchronous (SKIWeb) Outages.

3.8.1. Jabber Outage:

3.8.1.1. Notify the next HHQ that has access to Jabber for input (NAF, MAJCOM Command Center, AF Watch) (T-1).

3.8.1.2. In the event of an AF-wide Jabber outage, units will contact their HHQ to convene a voice conference with AF Watch (T-1).

3.8.2. SKIWeb Outage:

3.8.2.1. If Jabber is functional, post report to Jabber and state that the unit is experiencing a SKIWeb outage. The applicable MAJCOM Command Center or AF Watch (as applicable to FOA/DRUs) will post the report to SKIWeb. If the SKIWeb outage is AF-wide, the wing/unit will upload all reports submitted during the outage to SKIWeb upon system return (T-1).

3.8.2.2. If SKIWeb and Jabber are both **NOT** functional, the unit will contact their MAJCOM to convene a conference with the AF Watch and voice the report (T-1). Once the report has been voiced, the unit will follow-up with an email (record copy) on SIPRNET to next HHQ that has access to SKIWeb for input (T-1).

3.8.2.3. If SIPRNET outage is AF-wide, the unit will submit reports via secure telephone conference with the MAJCOM and AF Watch (NMCC as required) (T-0). Initial voice conferences will cover both the voice and record copy reports. The wing/unit will upload all reports submitted during the outage to SKIWeb upon system return (T-1).

3.8.3. Regardless of the outage, the AF Watch immediately relays all PINNACLE reports to the NMCC. For reports requiring voice notification within a 5-minute time limit, the AF Watch will connect the NMCC with the reporting unit's conference (T-0).

3.9. CSAF Special Reporting Items (CSAF-SRI). These are events/incidents that are of personal interest to the CSAF/SECAF. The AF Watch updates the CSAF OPREP Reporting Matrix when directed by the CSAF. AF/A3O will distribute a C2 CIF with specific reporting criteria for the CSAF-SRIs. CSAF-SRIs remain in effect until superseded or rescinded.

3.10. (Added-PACAF) FPCON/INFOCON Change. When a sub-unified command (i.e., USFK, USFJ) directs a change in FPCON/INFOCON within their AOR, the Air Force units in that AOR will report FPCON/INFOCON status changes through their NAF CP. The NAF CP will consolidate information and status received from the wing CPs and assume responsibility for forwarding required reports to AFSWC. See AFI 10-206 Rules 6A and 9I for further guidance.

Chapter 4

COMMANDER'S SITUATION REPORT (SITREP)

4.1. Subject and Purpose. To keep the MAJCOMs, services, Joint Staff, and SECDEF apprised of existing political, military, and operational situations/plans and to keep commanders advised of a unit's ability to meet requirements outlined in approved plans. The SITREP is a narrative report that informs and enables higher levels of command to evaluate resources and prepare for potential effects of ongoing situations. The commander or designated alternate is responsible for timely and accurate SITREP reporting (T-1).

4.1.1. Situation reporting will be accomplished for, but not limited to, the following (T-1):

4.1.2. Involvement in critical national or international situations

4.1.3. Involvement in natural or manmade disasters and/or emergency-relief efforts

4.1.4. Significant operational deficiencies that affect mission readiness

4.1.5. Other activities or ongoing operations to include DSCA. All DSCA events should be reported as described in Chapter 6.

4.1.6. Units receiving aircraft or personnel due to natural disaster evacuations

4.1.7. When directed by a HHQ (COCOM, JS, HAF, MAJCOM)

4.2. Submitted By. Commanders at all levels will submit SITREPs when on-going events warrant (T-1).

4.3. Submitted To. SITREPs are provided to the MAJCOM and AF Watch. The AF Watch transmits SITREPs to the NMCC for JS directed reports. Units follow COCOM guidance when directed to submit SITREPs to a COCOM (T-1).

4.4. Submission Timing. If submission timing is not directed by HHQ, reports are submitted daily for the duration of the activity or operation. Unless specified otherwise by a combatant commander directive, submit reports no later than 0800Z, reflecting data current as of 0600Z (T-1).

4.5. Submission. The primary means for transmitting SITREPs is via MS Word or Adobe PDF file in SKIWeb. Units will format the subject line of the SITREP IAW Paragraph 4.7.1 (T-1). Units will post the SITREP as an attachment to an event (similar to OPREP-3 submission) (T-1). When posting a SITREP in SKIWeb, units use the subject line of the SITREP in the Event Title section and copy the Commanders Evaluation (Comments) from the SITREP and paste them into the Event Text block. The SITREP is added as an attachment.

4.5.1. After posting the record copy SITREP in SKIWeb, units enter the Subject Line of the report in Jabber and state the report has been posted to SKIWeb. Refer to Paragraph 4.7.1. for subject line format.

4.5.2. When primary means are unavailable, transmit reports via SIPRNET email to the MAJCOM and AF Watch.

4.5.3. **(Added-PACAF)** PACOM/PACAF directed SITREPs will be submitted to the PCC SIPRNet e-mail org box **(T-2)**.

4.5.4. **(Added-PACAF)** The format, content, and timing of PACOM/PACAF directed SITREPs may vary. HHQ directed SITREPs will include format, content, and timing instructions, if different than the general AF SITREP template (T-2).

4.6. General Reporting Instructions.

4.6.1. Duplicate reporting is not desired; however, information available in another JS report will be referenced to ensure operational impacts are noted.

4.6.2. Any HHQ level in the reporting chain may direct additional reporting requirements. AF Watch is authorized to request any additional/amplifying information on past events, current operations, or planned actions.

4.7. Report Construction. AF SITREPs report significant factors relating primarily to readiness, mobilization personnel, force protection, and logistics. Report content should highlight key activities and build on previous reports. Brevity is paramount. The below categories provide a list of subparagraphs. These paragraphs are used as general SITREP template. Specific categories may be directed based on the event or operation and information required.

4.7.1. **Subject Line.** The subject line is the first (top) line in all AF SITREPs. The subject line includes the following sections: AF SITREP ###, DTG of the report, Unit, Base, State. Example: AF SITREP 023, 250800ZDEC2014, 436 AW, Dover AFB, DE

4.7.2. **GENERAL:** Report any pertinent general information (commander's own situation, disposition, and/or status of forces), to include a summary of significant unit mission readiness degradation, current deployments, and projected deployments and requirements. If there is no information to report, then enter the acronym: NSTR (Nothing Significant to Report).

4.7.3. **SITUATION:** Report assessments of the situation to include circumstances or conditions that increase or materially detract from the capability and readiness of forces assigned or under operational control of the command or service. If there is no information to report, then enter the acronym: NSTR.

4.7.4. **OPERATIONS:** Report a description and results of offensive and/or defensive operations carried out by major combatant elements, information on allied forces' operations, summary of plans for combat operations during the next 24 hours, and deviations or variations from previously reported intentions/plans. Include as a minimum: Unit, location, aircraft/equipment status (fully mission capable, partially mission capable, not mission capable), sorties scheduled, sorties flown, specific reasons for sortie cancellations and sorties scheduled for next 24 hours, unit/aircraft rotation plans/status, and any other items required by AF Watch. If there is no information to report, then enter the acronym: NSTR.

4.7.5. **INTELLIGENCE-RECONNAISSANCE:** A brief overview of the situation in terms of operations, order of battle, capabilities, and threat changes. Reference any Spot Intelligence reports submitted in the past 24 hours. Report changes in force protection conditions (FPCON), details of significant incidents with FPCON implications, security deficiencies and vulnerabilities, mitigation measures, significant criminal activity, etc. If there is no information to report, then enter the acronym: NSTR.

4.7.6. LOGISTICS: Identify significant deficiencies affecting support for planned operations and problem areas beyond the commander's or service's capability to overcome or alleviate in a timely manner. If there is no information to report, then enter the acronym: NSTR.

4.7.7. COMMUNICATIONS CONNECTIVITY: Report significant communication outages, incompatibilities, quantitative equipment deficiencies, traffic volume, etc. If there is no information to report, then enter the acronym: NSTR.

4.7.8. PERSONNEL: Report factors affecting readiness of forces or units; mobilization status; daily battle casualties (i.e., killed in action, wounded in action, and missing in action), and the impact of all casualties sustained upon the command's mission capability. If there is no information to report, then enter the acronym: NSTR.

4.7.9. SIGNIFICANT POLITICAL-MILITARY-DIPLOMATIC EVENTS: Report events not reported by OPREP-3 PINNACLE or BEELINE but which could result in local, national, or international public reaction; civil unrest or indications of civil defense measures contemplated or implemented; and events affecting the attitudes, emotions, or behavior of the populous that could be used in developing psychological operations campaigns. If there is no information to report, then enter the acronym: NSTR.

4.7.10. COMMANDER'S EVALUATION: Provide the commander's evaluation, combatant commander's, or service chief's assessment of the situation. Comments provide an overall assessment and any individual comments keyed to forces as outlined in approved execute order/deployment order and modifications to those orders. If there is no information to report, then enter the acronym: NSTR.

4.7.10.1. Based on the event or operation, the AF Watch provide guidance to commanders on what information is requested for the final SITREP. Final information may be surmised in the Commander's Evaluation.

4.8. Termination of SITREP reporting. SITREP reporting can be terminated when the situation no longer warrants HHQ attention as directed by CSAF or the AF CAT director, with notification from AF Watch.

Chapter 5

HURRICANE CONDITION/TROPICAL CYCLONE CONDITIONS OF READINESS (HURCON/TCCOR) REPORTING

5.1. OPREP-3B Hurricane/Tropical Cyclone (Typhoon) Conditions of Readiness (HURCON/TCCOR). The terms “Hurricane” and “Typhoon” are regional specific names for strong tropical cyclones with wind speed greater than 74 mph. In the Atlantic Ocean or the Eastern Pacific Ocean (east of the international dateline) the storm is called a “Hurricane.” In the Western Pacific Ocean (west of the dateline) the storm is called a “Typhoon.”

5.2. Conditions of readiness are outlined in AFMAN 10-2504; refer to this instruction for specific HURCON/TCCOR responses for units.

5.3. OPREP-3B initial report will be submitted when a commander directs a change in readiness condition (T-1). Follow-Up reports will be submitted for each subsequent change and when the following actions have been directed (T-1).

5.3.1. Aircraft and/or Personnel Evacuation Decision, The time the decision was made; time when evacuation begins; the HURCON/TCCOR status; any updates or reference to the evacuation plan. Reported as a Follow-Up report to the OPREP-3 HURCON/ TCCOR Change.

5.3.1.1. **(Added-PACAF)** Units considering evacuating aircraft/personnel will send an Evacuation Reception Capability Request to the PCC and all PACAF Command Posts via SIPRNet. Units will Cc the PACOM JOC Director JOC.dir.PACOM@PACOM.smil.mil. (T-2).

5.3.1.1.1. **(Added-PACAF)** Requests will include the wing/base requesting support, declared HURCON/TCCOR condition, DTG of declaration, hurricane/typhoon name, and a No Later Than (NLT) DTG for replies. The NLT DTG will be based off the Aircraft Evacuation Plan. Units will submit requests using the format in **Figure 5.3 (T-2)**.

5.3.1.2. **(Added-PACAF)** Units in receipt of an Evacuation Reception Capability Request will respond to the requesting unit NLT the DTG listed in the request. Units will Cc the PCC and PACOM JOC Director. Replies will include the wing/base sending the reply, number and type of aircraft that can be accepted, number of officer/enlisted quarters available on base, number of quarters available off base, and any limiting factors and/or remarks. Units will reply using the format in **Figure 5.4 (T-2)**.

5.3.2. Aircraft and/or Personnel Evacuation Started. The time evacuation began; the HURCON/TCCOR status; any updates or references to the evacuation plan. Report the status of evacuees and shelter-in-place personnel prior to and after a natural disaster, IAW the guidelines in AFI 36-3803, *Personnel Accountability in Conjunction with Natural Disasters or National Emergencies*. Do not initiate a dual/separate report for Aircraft and/or Personnel Evacuation. Units will report the evacuation as a Follow-Up report to the Initial OPREP-3 HURCON/TCCOR (T-1).

5.3.3. Aircraft and/or Personnel Evacuation Complete. Report the time when all aircraft are at the designated refuge base; any updates as required. Reported as Follow-Up report.

5.3.4. Aircraft Reconstitution and/or Personnel Return to home station. Report the time when all aircraft have returned to home station. Report when personnel have been cleared to return to home station. Reported as Follow-Up or Final once reconstitution is complete.

5.4. General Reporting:

5.4.1. Each event of the same HURCON/TCCOR is reported as Follow-Up reports rather than separate reports.

5.4.2. Consolidation of Reports. When events outpace the decision process, merge reports when possible (i.e., HURCON declaration with evacuation decision). If there are 4 hours or more between stages, do not consolidate reports.

5.4.3. The HURCON/TCCOR reports are exempt from Paragraph 3.5.3.1. “seven-day close-out” policy.

5.4.4. Report templates are provided in [Figure 5.1](#) and 5.2.

Figure 5.1. OPREP-3B HURCON/TCCOR Template

<p>SUBJECT LINE</p> <p>CLASSIFICATION</p> <p>A. Storm Name (identifier) / Current Level:</p> <p>B. Time of level/event change: DDHHHHZMMYY</p> <p>C. Aircraft status:</p> <p>C.1. --

Figure 5.2. OPREP-3B HURCON/TCCOR Example

(U) OPREP-3B, 251458ZDEC2014, MacDill AFB, FL HURCON, Rule 14B.

UNCLASSIFIED

A. Storm Name / Current Level: Hurricane Chester / 3

B. Time of level/event change: 281458ZDEC2014

C. Aircraft status:

C.1. Total number of aircraft assigned

436 AW: 6x C-5B, 5x C-5M, 8x C-17

512 AW: 2x C-5M, 4x C-17

C.2. Number of MDS remaining on base:

436 AW: 1x C-5B hangered in ISO dock, 1x C-5M, tied down due to mx 8x C-17

C.3. Number of assigned aircraft off station by MDS and their intentions during the storm:

436 AW: 8x C-17 deployed in CENTCOM AOR. Will remain in AOR until cleared to return

512 AW: 2x C-5M at Ramstein AB – will RIP until after storm unless tasked by TACC

C.4. Number of assigned aircraft to be evacuated by MDS and their projected evacuation base(s):

436 AW: 5x C-5B evacuating to Tinker AFB starting 282300ZDEC14; 4x C-5M evacuating to Selfridge AFB starting 282200ZDEC14.

512 AW: 4x C-17 evacuating to Hickam AB starting 252350ZDEC14

C.5. Number of transient aircraft by MDS on station and their evacuation plan: Transient aircraft have departed and no flights scheduled to arrive during Hurricane Conditions.

D. Personnel Status: (Personnel information may be provided by A1, MPS, PERSCO)

D.1. Total number of personnel assigned: 5,600 total personnel assigned to the AWs

D.2. Number of personnel to shelter in place: 600 mission-essential personnel will shelter in place for emergency operations only.

D.3. Number of personnel evacuated and location: 5,000 personnel directed to evacuate to inland bases. Individual units are tracking personnel evacuating to leave locations (staying with families). Tinker AFB has been designated as the primary personnel relocation base. Approximately 1,200 personnel are expected to beddown at Tinker AFB.

D.4. Number of TDY personnel on station and their intentions: 800 personnel were TDY or assigned to joint billets. TDY personnel were directed to return to home station (if not in storm's path) or relocate with assigned personnel

E. Damage (communication, facilities, runway, etc.): N/A--No damage from storm reported

F. ETIC for outages, operations, missions: N/A

1. Wing/base
2. Number and type of aircraft that can be accepted: (i.e. F-16; KC-135, C-17 or zero capability)
3. Number of officer and enlisted quarters available on base: male officer/female officer/male enlisted/female enlisted (i.e. MO/FO/ME/FE=2/8/6/3)
4. Number of quarters available off base:
5. Limiting factors and or remarks:

Chapter 6

DEFENSE SUPPORT TO CIVIL AUTHORITIES (DSCA)

6.1. Guide for Reporting Defense Support to Civil Authorities (DSCA). AF response to civil authorities will fall into four categories (T-1):

6.1.1. Defense Support Memorandum (DSM). For routine MOU/A support (Security Forces response, paramedic request, fire support, etc.), reports will be submitted on the fifth duty day of the new quarter to the AF Watch by MAJCOM/DRU/FOA Command Centers. MAJCOM/DRU/FOA Command Centers will determine how the quarterly information is compiled from their units. For DSM MOU/As that have the potential to receive national news media attention or require a known reimbursement cost associated with directed actions, reports will be submitted within 2 hours of initiation of support and every 24 hours thereafter until support is complete.

6.1.2. DEFENSE SUPPORT IMMEDIATE RESPONSE (DSIR). Will be submitted within 2 hours of initiation of support and every 24 hours thereafter until support is complete.

6.1.3. Defense Support Presidential Directive (DSPD) to include 10-day rule, will be submitted within 6 hours of initiation of support and every 24 hours thereafter until support is complete.

6.1.4. Defense Support National Special (DSNS) Security Event. Will be submitted within 2 hours of initiation of support and every 24 hours thereafter until support is complete.

6.2. Refer to DoDD 3025. 1, *Military Support to Civilian Authorities*, DoDD 3025.15, *Military Assistance to Civilian Authorities*, and AFI 10-801, *Defense Support to Civil Authorities*, for a more detailed description of DSCA events.

6.2.1. Units report all DSCA (with the exception of routine DSM MOU/A) events via SKIWeb, and notify the AF Watch in Jabber that a DSCA has been posted to SKIWeb (T-1).

6.2.2. Submit a follow up message in SKIWeb as significant changes or circumstances occur (T-1).

6.2.3. Assets utilized for more than 24 hours and/or if media attention occurs, require a Follow-Up DSCA report once daily until the DSCA event is terminated or the asset returns to home base/installation (T-1).

6.2.4. If no change has occurred, a blog entry in SKIWeb stating “No changes in last 24 hours” will be made; Jabber notification is not required for a “No change” update (T-1).

6.2.5. All DSCA messages will have AF Watch, Air Force National Security Emergency Preparedness, and parent MAJCOM selected as an “Affected Area” in SKIWeb (T-1).

6.2.6. During synchronous (Jabber)/asynchronous (SKIWeb) outages, submit DSCA reports IAW Paragraph 3.8.(T-1).

6.3. DSCA Report Format/ Construction. Use template in Figure 6.1. to construct DSCA reports. **All Bolded items will be included in the report body. Units will use “N/A” when information is not applicable (T-1).**

Figure 6.1. AF DSCA Template

(Subj Class) AF DSCA, DDHHMMZMMMYYYY, Location Event Occurred, Event/Incident, DSCA Rule ###.

1. **Type of support, location, and specific assistance requested or provided:**
2. **Estimated duration of military participation in reported event:**
3. **Source, date, and time of civil authority's request for military assistance** (*Show official titles, phone numbers, and email addresses*):
4. **Number of USAF personnel (military and civilian) employed in the DSCA:**
5. **Amount and types of equipment used:**
6. **Amount and types of supplies used:**
7. **Title, rank, and telephone/email/fax of unit POC:**
8. **Describe the extent of any media interest in the USAF response:**
9. **Appropriate DoD or Federal Emergency Management Agency (FEMA) mission designator** (*if applicable*):

6.4. For major events, submit a Commander's SITREP with the most current information in Paragraph 6 3 (T-3). In addition, include the following information within 10 workdays after DSCA termination (T-1):

- 6.4.1. Assessment of military operations and effectiveness
- 6.4.2. Photographs and video of military operations
- 6.4.3. Chronological summary of USAF and Civil Air Patrol (CAP) actions to include all DoD and FEMA mission numbers performed as Air Force assigned missions, IAW AFI 10-2701, *Organization and Function of the Civil Air Patrol*.
- 6.4.4. Highlights of relief operations, outstanding performers, unusual actions or occurrences, or other events of interest for the USAF after action report
- 6.4.5. Discussion of specific problem areas encountered and actions recommended precluding recurrence in the future
- 6.4.6. Summary of relief operations expenses requiring reimbursement

6.5. Base Agencies. The installation commander will ensure base agencies provide the CP with all information required to complete the reporting and that the local base comptroller is aware of all DSCA submitted reports (T-3).

Chapter 7

CRESCENT EDGE (OPREP-3CE)

7.1. Purpose. Used to immediately notify the Joint Staff, or Air Force, of significant activities involving Special Access Programs (SAPs) operating IAW AFI 16-701, *Special Access Programs* (SAP). Affected unit CPs will submit voice reports through normal CP channels (T-1). The flag words BEELINE and PINNACLE are used to reference the SAP management level to be contacted. Regardless of the SAP management level, AF Watch addresses SAF/AAZ (Air Force Special Access Program Central Office). MAJCOMs establish procedures for contacting program managers at and below the MAJCOM level.

7.1.1. The AF OPREP-3CE report allows units operating SAPs to use the operational reporting channel to advise their program managers of events or incidents that meet OPREP-3 reporting criteria. The OPREP-3CE report is the single reporting channel for all SAP units reporting incidents to HHQ. An OPREP-3CE report is submitted when an authorized individual from the unit has determined an event or incident involving a SAP warrants higher-level awareness. OPREP-3CE voice reports are forwarded through CP channels to MAJCOM Command Centers and the AF Watch.

7.1.2. The unit with the SAP, not the CP, initiates OPREP-3CE reporting. The initiating unit notifies the CP of an OPREP-3CE report to be submitted. No program names or incident details are included in the report. The CP sends the report up the chain to the appropriate level. It is the reporting unit's responsibility, to determine the level of report to provide all information. After report submission CP performs no other action (T-3).

7.1.3. AF OPREP-3CE will not be reported via synchronous (Jabber)/asynchronous (SKIWeb) means (T-1). CPs upchannel OPREP-3CE through voice conference with MAJCOM and AF Watch. The only information passed in the voice conference is the name, contact number and office symbol of the person initiating the report and contact information of the program manager if different from initiator (T-1).

Chapter 8 (Added-PACAF)

COMMANDER'S CRITICAL INFORMATION REQUIREMENT (CCIR)

8.1. (Added-PACAF) Subject and Purpose. PACAF CCIR reports provide COMPACAF with information necessary for situational awareness of events that do not rise to the level of AF OPREP-3 PINNACLE/BEELINE reports. Command posts will submit applicable PACAF CCIR reports regardless of whether or not the event is being reported through other channels (i.e., safety reports) **(T-2)**. PACAF CCIR reports do not replace AF OPREP-3 requirements or the requirement for more detailed reports such as the Commander's Situation Report (SITREP), and other directorate's accident or incident investigation reports. The PACAF CCIR report does not change, nor is it a substitute, for any report required by other directives. Real-world PACAF CCIR reports take priority over exercise events.

8.1.1. **(Added-PACAF)** CCIRs will be reported to HHQ when deemed necessary by the Wing Commander. The PACAF CCIR Report Matrix, **Figure 8.4**, will be used as a guideline **(T-2)**.

8.1.2. **(Added-PACAF)** The FIRST Command Post having knowledge of an event/incident will report/facilitate CCIR reporting **(T-2)**. AF OPREP-3 reporting takes precedence over CCIR reporting.

8.1.3. **(Added-PACAF)** In the case of multiple CCIR submissions, the PCC will decide if multiple units will continue submitting or if one unit will continue all follow-up reporting based on information received.

8.2. (Added-PACAF) CCIR Report Timing Requirements. Units will submit synchronous reports as soon as possible from the time of incident. When a qualified/certified specialist must be consulted to determine if a CCIR event/incident has occurred (e.g., safety, medical provider for confirmation of death, etc.), timing standards will begin from CP notification of the determination rather than incident. Asynchronous reports will be submitted NLT one (1) hour from PCC approval of the synchronous report **(T-2)**.

Figure 8.1. (Added) CCIR Timing Criteria

Type of Report	Synchronous Report/Voice Report Timing (IAW Paragraph 8.6.)	Asynchronous Report/Record Copy Timing (IAW Paragraph 8.7.1.)
PACAF CCIR	As soon as possible from time of incident	1 hour from PACAF Command Center approval time

8.3. (Added-PACAF) Synchronous/Asynchronous Report Construction. Initial, Follow-Up, Final, Initial/Final, and Corrected reports. PACAF CCIRs will mirror OPREP-3 construction:

8.3.1. **(Added-PACAF)** Subject Line. All subject lines will contain a portion marking for classification of the subject line, the FLAGWORD "CCIR," the DTG of the incident, the location where the event occurred (include state/country), and the event/incident **(T-2)**.

8.3.1.1. **(Added-PACAF)** Example Subject Line: (U) CCIR, 231500ZOCT2014, Osaka, Japan, Attempted Suicide.

8.3.2. **(Added-PACAF)** Report Body. The body of the report includes the who, what, when, where, how and operational impact of the incident. Report as much information as possible known at the time. Regardless of transmission medium all CCIRs, with the exception of the Installation Control Center (ICC)/Emergency Operation Center (EOC) Activation, will be constructed in the following manner **(T-2)**:

8.3.2.1. **(Added-PACAF)** Report type: Initial, Initial/Final, Follow-Up, Final, or Corrected.

8.3.2.2. **(Added-PACAF)** Time and Date: Time of incident in HHMMZ, DDMMYY format.

8.3.2.3. **(Added-PACAF)** Unit: Wing CP reporting the incident (e.g., 51FW/CP, 18WG/CP, etc.)

8.3.2.4. **(Added-PACAF)** Member: Include age, gender, rank, military status, unit, etc. Use N/A for reports that do not require member information.

8.3.2.5. **(Added-PACAF)** Details: In narrative, sentence case format, include the who, what, when, where, and how the event/incident occurred. When aircraft are involved, include the MDS, tail number, assigned unit, mission number, etc.

8.3.2.6. **(Added-PACAF)** Mission Impact/Impairment (if applicable). This section of the report should identify how the event or incident impacts the unit/wing/installation mission (individual squadron/duty section impact is not required). Use N/A for reports that do not impact mission.

8.3.2.7. **(Added-PACAF)** ETIC: Identify the estimated time the situation will end, the aircraft is expected to return to service, etc. Use N/A for reports that do not require an ETIC.

8.3.2.8. **(Added-PACAF)** Point of Contact. This is used after consulting and confirming with the appropriate external agency/agencies and informing them that further reports will be accomplished through their channels, include agency office symbol and 10-digit DSN number. This may be used for Final Reports (including Initial/Finals); use N/A for this line for all other report types (Initials/Follow-Ups/Corrections).

8.3.2.9. **(Added-PACAF)** Each line of the body will be portion marked.

8.3.2.10. **(Added-PACAF)** Classified reports will be annotated with the overall classification at the beginning and end of the report.

Figure 8.2. (Added-PACAF) Commander's Critical Information Requirement (CCIR) Example

From: Joint Base Pearl Harbor-Hickam CP

To: PACAF Command Center

SUBJ: (U) CCIR, 080300ZAUG2014, Joint Base Pearl Harbor-Hickam, HI, Attempted Suicide

(U) Report type: Initial
 (U) Time and Date: 0300Z, 08 Aug 14
 (U) Unit: 15 WG/CP
 (U) Member: 24 y/o male, SrA (REGAF), 15 OSS
 (U) Details: Member was drinking in his dorm room and consumed a bottle of sleeping pills. He immediately called 911 and reported the incident. The physician determined it to be a suicidal attempt. The member remained in the Tripler Army Medical Center overnight for observation. He was released to his First Sergeant the next morning at 081700ZAUG2014. Member is single with no dependents.
 (U) Mission Impact/Impairment: N/A
 (U) ETIC: N/A
 (U) POC: Lt Col , DSN 555-4802

8.3.3. **(Added-PACAF)** Initial and Initial/Final reports. Initial and Initial/Final reports should contain as much information as immediately available. An Initial report may only be submitted as an Initial/Final report if it contains all of the required information to close the report. The PCC may ask questions during initial reporting to get clarification and/or request additional information to post in the record copy report. Information requested by the PCC will be provided in an asynchronous report when the information becomes available **(T-2)**.

8.3.3.1. **(Added-PACAF)** If seven calendar days have elapsed from the Initial report and those questions are not answered, a Final CCIR Report will be submitted stating "No further information will be provided through CCIR channels." This statement will be included in the Details line of the report **(T-2)**.

8.3.3.2. **(Added-PACAF)** If further reporting will be accomplished through an external agency (e.g., safety), the statement "Further reporting through other channels (e.g., safety)" will be included in the Details line of the report. This statement will only be used after consulting and confirming with the appropriate external agency that further reports will be accomplished through their channels. Include agency office symbol and contact number in the report **(T-2)**.

8.3.4. **(Added-PACAF)** Follow-Up Reports. These reports are essential to keep commanders informed of developing situations and to provide additional details as they are learned. If not answered in the Initial report, Follow-Up reporting will continue until all of the following questions are answered: who, what, when, where and how as the information becomes available **(T-2)**.

8.3.5. **(Added-PACAF)** Final Reports. Final reports provide required information not previously reported and close event/incident reporting. All Final reports will end with, "No

further information will be provided through CCIR channels” in the Details line of the report. Units will not close a CCIR report without answering all questions requested by the PCC (T-2).

8.4. (Added-PACAF) Upgrading Reports. Reference AFI 10-206, paragraph 3.5.6. The DTG for the subject line of the upgraded report will be the time the information was received that made the report a BEELINE/PINNACLE. The original CCIR will automatically be closed upon submission of the upgraded report (T-2).

8.5. (Added-PACAF) Corrected Reports. The originator will submit a correction if an error is noticed in content (i.e., factual data not being reported), after submitting the report. The first line of the corrected report will state "Correction to PACAF CCIR DDHHMMZMMMYYYY report" in the Detail line. Retyping the report is not the intent. Include only corrected information, but enough to aid the reader in understanding what was corrected (T-2).

8.5.1. **(Added-PACAF)** Submit corrected reports through synchronous reporting and obtain PCC acknowledgement prior to making corrections in the asynchronous report.

8.6. (Added-PACAF) Synchronous Reporting. Units will submit a synchronous report into the "pacaf.commandcenter" jabber room for all Initial, Follow-Up, Final, Initial/Final, and Corrected PACAF CCIR report. Reports will be submitted as soon as possible from time of incident (T-2).

8.6.1. **(Added-PACAF)** The PCC will acknowledge unit reports within 5 minutes of the posting. In the event that the PCC does not acknowledge within 5 minutes, the unit will contact the PCC for acknowledgment. The PCC will then provide acknowledgement through Jabber (T-2).

8.6.2. **(Added-PACAF)** The PCC will review unit reports for errors, additional information, corrections, and possible upgrade requirements before leadership and agencies are notified. The PCC will not alter the content but may make minor grammatical corrections to any report. If the PCC has no questions/required updates following the CCIR review, the PCC will acknowledge by stating "PACAF has no further questions, please advise once the report is e-mailed to the PCC SIPR Org e-mail." This statement will serve as the official PACAF approval time (T-2).

8.7. (Added-PACAF) Asynchronous Reporting. Units will submit an asynchronous report for all Initial, Follow Up, Final, Initial/Final, and Corrected PACAF CCIR reports to the PCC via SIPR e-mail. Units will use the CP organizational e-mail account to submit reports and will Cc the Parent NAF Command Center, and the owning MAJCOM Command Center (i.e. ACC, AMC, ANG) and/or owning unit command post, if applicable, via SIPRNet e-mail (T-2).

8.7.1. **(Added-PACAF)** Asynchronous reports will be submitted within 1 hour of the synchronous report. Units will make all corrections and include any additional information requested during synchronous reporting to the asynchronous report (T-2).

8.7.2. **(Added-PACAF)** Units will include any updated information gathered after the initial jabber notification without exceeding the time criteria. Do not delay asynchronous reporting to obtain additional information (T-2).

8.8. (Added-PACAF) Appropriate Report Content. Reference AFI 10-206, paragraph 3.7.1.1.

8.9. (Added-PACAF) Inappropriate Report Content. Reference AFI 10-206, paragraph 3.7.1.2.

8.10. (Added-PACAF) ICC/EOC Activation. An ICC/EOC Activation/Deactivation report will be sent any time a unit's ICC/EOC is activated in response to a real-world event. Reports will be submitted in the same manner as other CCIR reports with the exception of the report body (**T-2**).

8.10.1. **(Added-PACAF) ICC/EOC Activation/Deactivation Report Body.** The body of the report will include the report type, activation/deactivation time, unit, crisis/operation, location of the ICC/EOC, and ICC/EOC member contact information. See Figure 8.3. (**T-2**).

8.10.1.1. **(Added-PACAF) Report type:** Activation or Deactivation.

8.10.1.2. **(Added-PACAF) Time and Date:** activation/deactivation time in HHMMZ, DDMMYY format.

8.10.1.3. **(Added-PACAF) Unit:** Wing reporting the activation/deactivation.

8.10.1.4. **(Added-PACAF) Crisis/Operation:** (i.e. Operation Desert Storm).

8.10.1.5. **(Added-PACAF) ICC/EOC Location:** Building/room.

8.10.1.6. **(Added-PACAF) ICC/EOC Contact numbers:** Position and secure/non-secure phone numbers.

8.10.2. **(Added-PACAF) For ICC/EOC Deactivations,** the ICC/EOC location and ICC/EOC contact numbers will not be included in the report.

Figure 8.3. (Added-PACAF) ICC/EOC Activation Message Format

From: Unit	
To: PACAF Command Center	
SUBJ: (U) CCIR, 081500ZAUG2014, ICC/EOC Activation	
1. Report Type: Activation	
2. Time and Date: 1500Z, 08 Aug 14	
3. Unit: 15 WG/CP	
4. Crisis/Operation:	
5. ICC/EOC Location: Bldg 504/Rm 6	
6. ICC/EOC Contact numbers:	
ICC/EOC position	DSN/Secure Voice
WG/CC	123-4567 / 123-7654
ICC director	123-4568 / 123-7655
Public Affairs	123-4569 / 123-7656
Judge Advocate	123-4570 / 123-7657

8.11. (Added-PACAF) Exercise Reports. Units may submit exercise CCIR reports in the “pacaf.exercise” jabber room. “EXERCISE DO NOT TRANSMIT” should be annotated at the beginning and end of the report to preclude inadvertent transmission of local exercise messages.

8.12. (Added-PACAF) Storage. All received/transmitted PACAF CCIR Reports will be stored either electronically (removable storage [as authorized], network drives, etc.) or in printed record copy. Retain CCIRs for one year with each successive month from the current year replacing the previous year (T-2).

8.13. (Added-PACAF) Synchronous/Asynchronous Outages. The primary means for submitting synchronous/asynchronous PACAF CCIR reports is via jabber (synchronous) and SIPRNet e-mail (asynchronous).

8.13.1. (Added-PACAF) If jabber is unavailable, units will send synchronous reports via SIPRNet e-mail to the PCC (T-2).

8.13.2. (Added-PACAF) If SIPRNet is unavailable, units will submit unclassified reports to the PCC via NIPR e-mail. Classified reports will be voiced via secure means (T-2).

Figure 8.4. (Added-PACAF) CCIR Matrix

COMMANDER CRITICAL INFORMATION REQUIREMENT (CCIR) CONSIDERATIONS	
EVENT/INCIDENT	DETAILS
AIRCRAFT OPERATIONS	
AIRCRAFT DIVERT	All aircraft divers in the PACAF AOR or affecting PACAF assets.
AIRCRAF INCIDENTS/MISHAPS	Flight line or aircraft incidents/mishaps resulting in personnel hospitalization or serious injury or damage to the aircraft. Include bird strikes, lightning strikes, or any other damage not reportable under PINNACLE/BEELINE criteria.
ACTIVE AIR DEFENSE LAUNCH OR DIVERSION	Launch or diversion of US aircraft on active air defense mission.
GROUND ACCIDENTS/INCIDENTS	
DEATH, ATTEMPTED SUICIDE OR NON-FATAL PERSONAL INJURY	Attempted suicide of an active duty member. & Death or attempted suicide of a dependent, civilian or contractor who is assigned or attached to a PACAF installation.
UTILITY SYSTEM OUTAGES/FAILURE	Any runway, taxiway, barrier, fuel storage/hydrant system failure that results in extended (>4 hours) degradation of mission capability.
CRIMINAL ACTIVITY	
CRIMINAL ACTIVITY	Serious crimes alleged to have been committed by or against USAF personnel or their

	dependents or against USAF property at a PACAF installation not fitting PINNACLE/BEELINE criteria.
HOSTILE ACTIONS OR EVENTS	
BOMB THREAT	Bomb threats received by any PACAF installation facility that resulted in facility closure and evacuation where device was not detected. All threats that do not meet BEELINE requirement.
CIVIL DISTURBANCES	Significant disturbances or demonstrations targeted against PACAF installations or units not fitting PINNACLE/BEELINE criteria.
MISCELLANEOUS	
COMMANDER'S INTEREST	Other unusual occurrences, significant events/incidents, and happenings involving PACAF, PACAF-gained, or PACAF-hosted resources which do not qualify under PINNACLE/BEELINE but merit HQ PACAF attention.
COMMAND POST RELOCATION	Any relocation of PACAF Command Post or Command Center, scheduled or unscheduled for a period of 24 hours or more. SEE NOTE 1.
ICC/EOC ACTIVATION OR DEACTIVATION	ICC/EOC activation and deactivation in response to a real world event.
NOTES:	
1. At a minimum, during Command Post relocations (scheduled or unscheduled), the unit will contact the PCC to inform them of the relocation and provide contact numbers.	

BURTON M. FIELD, Lt Gen, USAF
DCS, Operations, Plans and Requirements

(PACAF)

MICHAEL A. MINIHAN, Colonel, USAF
Deputy Director of Air and Cyberspace Operations

Abbreviations and Acronyms

(Added-PACAF) ACC—Air Combat Command

AFOG—Air Force Operations Group

AF OPREPS—Air Force Operational Reporting System

AFRC—Air Force Reserve Command

AFRIMS—Air Force Records Information Management System

AFSC—Air Force Safety Center

AF WATCH—Air Force Service Watch Cell

(Added-PACAF) AFSWC—Air Force Service Watch Cell

(Added-PACAF) AGR—Active Guard Reserve

(Added-PACAF) ALCOM—Alaskan Command

(Added-PACAF) AMC—Air Mobility Command

ANG—Air National Guard

AOR—Area of Responsibility

ARC—Air Reserve Component

(Added-PACAF) ART—Air Reserve Technician

C2—Command and Control

(Added-PACAF) COMPACAF—Commander Pacific Air Forces PACAF – Pacific Air Forces

CP—Command Post

CAP—Civil Air Patrol

CCIR—Commander’s Critical Information Request

CJCS—Chairman, Joint Chiefs of Staff

CJCSM—Chairman, Joint Chiefs of Staff Manual

CMSAF—Chief Master Sergeant of the Air Force

COCOM—Combatant Commander

CSAF—Chief of Staff, USAF

DoD—Department of Defense

DRU—Direct Reporting Unit

DRRS—Defense Readiness Reporting System

DSCA—Defense Support to Civilian Authorities

DSN—Defense Switch Network

DTG—Date Time Group

(Added-PACAF) EOC—Emergency Operations Center

FEMA—Federal Emergency Management Agency

FMC—Fully Mission Capable

FOA—Field Operating Agency

FPCON—Force Protection Condition

HAF—Headquarters Air Force

HQ—Headquarters

HTSA—Host Tennant Support Agreement

HURCON—Hurricane Condition

IAW—In Accordance With

(Added-PACAF) ICC—Installation Control Center

(Added-PACAF) IMA—Individual Manpower Augmentee

INFOCON—Information Operation Condition

JB—Joint Base

JCS—Joint Chiefs of Staff

(Added-PACAF) JOC—Joint Operations Command

JS—Joint Staff

JTF—Joint Task Force

JRS—Joint Reporting Structure

MAJCOM—Major Command

MOA—Memorandum of Agreement

MOU—Memorandum of Understanding

MPS—Military Personnel Section

MX—Maintenance

(Added-PACAF) NAF—Numbered Air Force

NIPRNET—Non-Secure Internet Protocol Router Network

(Added-PACAF) NLT—No Later Than

NMC—Non-Mission Capable or Not Mission Capable

NMCC—National Military Command Center

NORAD—North American Air Defense Command

NSTR—Nothing Significant to Report

OPLAN—Operation Plan

OPREP— -Operational Report

(Added-PACAF) PACOM—Pacific Command

(Added-PACAF) PCC—PACAF Command Center

SAP—Special Access Programs

SECDEF—Secretary of Defense

SIPRNET—Secure Internet Protocol Network

SITREP—Commander's Situation Report

(PACAF) SITREP—Situational Report

SKIWeb—Strategic Knowledge Integration Web

(Added-PACAF) SOCPAC—Special Operations Command Pacific

SORTS—Status of Resources and Training System

SRI—Special Reporting Item

SSN—Social Security Number

SSO—Special Security Office

TCCOR—Tropical Cyclone Conditions of Readiness

TDY—Temporary Duty

TIMELOC—Time and Location

(Added-PACAF) USFJ—United States Forces Japan

(Added-PACAF) USFK—United States Forces Korea

OPREP-3 REPORTS GUIDE

Figure A2.1. Guide for OPREP-3 Event/Incident Reporting

Note: The following considerations should be included (as applicable) in a narrative format:

1. Name and location of unit submitting report
2. Operation nickname or type of occurrence
3. Mission identification number (if applicable)
4. For Follow-Up reports, reference to all previous reports
5. Date, time, rank, unit of assignment, and location of event or incident
6. Analysis of public relations factors involved and estimate of news media reaction
7. Description of all known facts and circumstances:
 - a. Include the following for events or incidents concerning aircraft, missiles, or satellites:
 - (1) Serial number and type of aircraft, missile, or satellite
 - (2) Home unit
 - (3) Home base
 - (4) Mission. (For aircraft, include point of departure and en route stops.)
 - (5) Type of ordnance aboard
 - (6) Any known circumstances concerning the event/incident, or any factor, which induced or contributed to an accident or combat loss
 - (7) Weather conditions at time and place of event or incident (aircraft only)
 - (8) Estimate of casualties
 - (9) Names of VIP casualties involved (given independent of OPREP-3)
 - (10) Estimate of property or equipment damage (AF, public, or private)
 - (11) Security measures taken (i.e., number and type of personnel used as sentries, unit and base of assignment). If nuclear weapons are involved, include whether or not a national defense area was established according to AFI 31-101, *The Air Force Installation Security Program*.
 - b. When compromise or suspected compromise of classified information is involved that is not the result of espionage, include as much of the following as possible:
 - (1) Description of material involved, including origin (agency and office of primary responsibility), date, subject, classification, category, special marking, etc.
 - (2) Identification of persons and activities involved
 - (3) Summary of circumstances
 - (4) Estimated extent of compromise
 - (5) If Office of Special Investigations (OSI) assistance has been requested
 - c. For vehicle/motorcycle accidents that do not result in death:
 - (1) Were seatbelts/helmets worn?
 - (2) Was alcohol a factor?
 - (3) Was a motorcycle safety course completed?

Figure A2.2. Death of an Air Force Member Additional Information Format

Include the following in a narrative format:

1. Provide the marital status of member (single, married, divorced, or separated)
2. Provide the age, gender, and rank of the individual
3. Provide status of children and how many, as applicable
4. Provide location of where the member was found (i.e., on-base/off-base residence or work)
5. Provide (if known) who found the member's body
6. Provide known medical or administrative problems, if applicable
7. For vehicle/motorcycle accidents:
 - a. Were seatbelts/helmets worn?
 - b. Was alcohol a factor?
 - c. Was a motorcycle safety course completed?
8. What is the status of next-of-kin (NOK) notifications?
9. For ANG and Air Force Reserve members, is/are the member(s) on U.S. Code Title 10 orders?
10. Any additional information known.

Figure A2.3. Guide for Reporting Suspected or Confirmed Terrorist use of Chemical, Biological, or Radiological, or Nuclear (CBRN) Materials

If a data element is unknown, list line identifier (A., B., C., etc.) and state "UNKNOWN". Include Follow-Up data elements, if known, in the Initial report. Do not delay initial report.

- 1) Initial data elements:
 - a) Was a threat communicated in relation to the incident? If yes, then include text or summary of communicated threat.
 - b) Number of victims exhibiting symptoms and severity of injuries
 - c) Symptoms of victims
 - d) If CBRN substance is known or suspected, include its Chemical Abstracts Service (CAS) Registry Number cost accounting standard (CAS) and/or UN number and proper name, if known. CAS Registry Numbers can be referenced at <http://www.cas.org>. For voice reports, read chemical name of substance names out phonetically (e.g., SIERRA, TANGO, ROMEO, OSCAR, NOVEMBER, TANGO)
 - e) Whether CBRN material was released or is still contained. Provide, if released; the nature, location, dispersal method, and amount of release, if known.
 - f) Weather conditions (wind speed, temperature, humidity, air stability, cloud cover)
 - g) Describe geographic boundaries affected by CBRN hazard
 - h) Describe the geographic boundaries of the size of cordon and evacuation zone
 - i) Are off-base areas or populations (specify town, city, or county with jurisdiction) in the (suspected/predicted) hazard area at this time, or will they be within the next three hours?
 - j) Have civilian authorities (specify town, city, or county with jurisdiction) for affected (off-base) populations been contacted?
 - k) Has outside aid been requested/ received? List agencies.

- 2) Follow-Up data elements: Update data elements from the Initial report and add the following information, if available:
- a) Identify CBRN substance involved. If CBRN substance is known, specify its CAS and/or UN number and proper name, if known. State HAZMAT Incident Commander's level of confidence (High, Medium, or Low) in the presumptive identification of the CBRN substance.
 - b) Briefly describe actions taken to identify substance. List type of monitoring and tests performed and results.
 - c) Describe CBRN substance: Color, odor, and physical state (solid, powder, aerosol, vapor, gas, or liquid)
 - d) Description of container or delivery system
 - e) If there was a communicated threat of a specific material or agent, does the available data tend to support or disprove the details of the communicated threat?
 - f) If CBRN substance is unknown, list protective action assumptions being employed, such as Department of Transportation (DOT) Emergency Response Guide (ERG) numbers.
 - g) Estimate of how many personnel were exposed
 - h) Describe the geographic boundaries of the size of cordon and evacuation zone
 - i) Personal protective equipment (PPE) used by responders entering Hot Zone
 - j) List all off-base agencies involved in response
