AFMAN 23-122, Materiel Management Procedures, is supplemented as follows: This supplement clarifies and updates LRS responsibilities. These procedures apply to all Materiel Management personnel (military, civilian and contractors) working for the Logistics Readiness Squadrons (LRS) and Materiel Management Activities within the Pacific Air Forces (PACAF) Command. It identifies requirements specific to PACAF. This supplement does not apply to the Air National Guard (ANG) or the Air Force Reserve Command (AFRC), but does apply to Air Force Reserve members assigned to PACAF units or activities. Ensure that all records created as a result of processes prescribed in this publication are maintained in accordance with Air Force Manual (AFMAN) 33-363, Management of Records, and disposed of in accordance with Air Force Records Information Management System (AFRIMS) Records Disposition Schedule (RDS). Refer recommended changes to this supplement to the Office of Primary Responsibility (OPR) using the AF Form 847, *Recommendation for Change of Publication*, routed through the appropriate functional chain of command.

5.2.2.3.1.1.2.1. ACSA exchange approval authority is not delegated to local commanders.

5.4.10.2.2. Forecast records for base funded items are not normally required to be submitted to HQ PACAF/A4R.

5.9.3.3.1.4. DD Form 1576 or 1576-1 may also be used to indicate in-stock functional checks are required.
