This publication implements Air Force Policy Directive 36-1, Appropriated Funds Civilian Management and Administration and clarifies responsibilities and procedures pertaining to the death of a civilian employee. This publication applies to appropriated fund (APF) civilian employees of the Regular Air Force, United States Space Force (USSF), and Title 5 Department of Air Force (DAF) employees of the Air Force Reserve and the Air National Guard. It does not apply to military members, including Title 32 Air National Guard Technicians, or to Nonappropriated Fund employees. In collaboration with the Chief of the Air Force Reserve (AF/RE), the Director of the Air National Guard (NGB/CF), and the Deputy Chief of Space Operations for Human Capitol (SF/S1), the Deputy Chief of Staff for Manpower, Personnel, and Services (AF/A1) develops personnel policy for civilian survivor assistance. SUMMARY OF CHANGES

This document has been revised to add appropriate considerations and terminology due to the stand-up of the USSF and incorporates updated references and publication guidance. The applicability statement has been clarified by removing reference to local national employees on temporary duty and to uniformed military members as this publication is applicable to appropriated fund civilian employees. Verbiage indicating that the publication extends benefits and referencing transportation agreements has been removed. Mortuary benefits for civilian employees, including eligibility for those on transportation agreements, are outlined in DoDI 1300.29, Mortuary Affairs Program and Department of Air Force Instruction (DAFI) 34-160, Mortuary Affairs Program. A section has been added to address civilian emergency contact information and use of the Department of Defense (DD) Form 93, Record of Emergency Data for civilian employees based on guidance in DoDI 1300.18 DoD Personnel Casualty Matters, Policies, and Procedures. Changes to the roles and responsibilities section incorporates applicable information contained in DAFI 36-3002, Casualty Services, and DAFI 34-160, Mortuary Affairs Program. Publication directs that certain civilian death responsibilities and procedures such as emergency contact/primary next of kin (PNOK) notification, and advising on travel and transportation entitlements be established at the installation-level instead of dictating those responsibilities and procedures in this instruction. This allows for flexibility based upon installation and organizational structure and capabilities. Information to be included in installation-level guidance and responsibility to ensure compliance are assigned to the installation's organizational headquarters. Statements regarding making information from the decedent's personnel record available for use in a public announcement have been removed as that decision should be made at the local level and involve the Public Affairs Officer. Reference to civilian flag recognition benefit for fallen federal civilian employees has been removed as DoD policy has not yet been issued on that topic. Reference to making notification to the civilian decedent's family members other than the emergency contact/PNOK has been removed.

OVERVIEW

- **1.1. DAF Handling of Civilian Employee Deaths.** This instruction outlines the responsibilities for identifying, notifying, and assisting the PNOK when there is a DAF civilian employee death. The DAF will handle the death of a civilian employee, to include PNOK notification, assistance to survivors, and handling of the deceased employee's personal effects with thoughtfulness, professionalism, and confidentiality.
- **1.2. Coordination of Services.** Coordination of services between the DAF offices involved in the civilian death should appear seamless to the surviving family members so as to ease the amount of stress and confusion during a difficult time. The specific offices involved may vary depending on the individual and circumstances surrounding the death. Each office should be aware of its own responsibilities as well as familiar with those of the coordinating offices so as to appropriately advise and refer the PNOK/survivor, when necessary. Where noted in **Chapter 2**, *Roles and Responsibilities*, the coordinating office responsibilities were derived from the cited DoD policy/DAF guidance.
- **1.3. Allowing for Prompt Notification** . Ensuring that proper procedures are routinely followed facilitates easier notification and assistance procedures in the event that notification is necessary. Employees are highly encouraged to provide and keep their emergency contact information updated. **Chapter 4** of this instruction addresses civilian emergency contact information. Employees are also encouraged to make sure that beneficiary forms are on file and up to date. Having current and accessible information available will allow for proper and timely notification to be performed, in the event a death or other situation requiring notification of an emergency contact occurs. Supervisors should be able to locate the employee's emergency contact information and be familiar with the local procedures to be followed in the event of an emergency.
- **1.4.** When Emergency Contact and PNOK differ. When the deceased employee has listed an emergency contact other than the PNOK, except when specified on the DD Form 93 to not contact an individual, the party responsible for performing notification duties will ensure that the PNOK is also notified of the civilian death.
- **1.5. Definition of Terms.** Refer to the Terms list in **Attachment 1** to find definitions of terms used within this instruction.
- **1.6.** Nonappropriated Fund Personnel Casualties. Consult Air Force Manual 34-302, *Nonappropriated Fund Personnel Benefit Programs*, for Nonappropriated Fund Personnel casualties.

- 5.1.5. If there is no DD Form 93 on file to identify the emergency contact and/or listing the PNOK, the CPS will review the personnel records in an attempt to identify PNOK from beneficiary forms and/or health insurance enrollment forms. (**T-1**)
 - 5.1.5.1. A designation of beneficiary form is specific to that particular benefit and individual.
