BY ORDER OF THE SECRETARY OF THE
AIR FORCE

AIR FORCE POLICY DIRECTIVE 14-2

29 NOVEMBER 2007

Intelligence

INTELLIGENCE RULES AND PROCEDURES

Intelligence personnel must be trained and certified to support their assigned mission design series, weapons system or intelligence activity. This directive provides the policy to ensure Air Force (Regular AF, Air National Guard, and Air Force Reserves) intelligence personnel can provide critical intelligence support to enable successful mission completion. Ensure that all records created as a result of processes prescribed in this publication are maintained in accordance with AFMAN 37-123, Management of Records and disposed of in accordance with the Air Force Records Disposition Schedule (RDS) located at **https://afrims.amc.af.mil/**. Restrictions expressed in an instruction can be made more, but not less, restrictive by supplement. The provisions of higher-level publications take precedence over lower-level publications. This policy document supports all Air Force Intelligence Training Transformation (IT2) efforts as mandated by DoD and other national policy directives.

1. General:

1.1. The Air Force will establish policy to ensure intelligence personnel meet the full range of intelligence requirements to initiate and sustain global air, space, and cyberspace operations. Adherence to prescribed guidance and procedures is mandatory for all intelligence personnel.

2. Responsibilities:

2.1. The Air Force Deputy Chief of Staff, Intelligence, Surveillance and Reconnaissance (AF/A2), establishes guidance and procedures, interprets policy and provides oversight for intelligence rules and procedures.

2.2. AF/A2 Staff will be the OPR for AFI 14-202. AFI 14-202 will become a three-volume AFI and be renamed. AF/A2F will be the OPR for all three volumes. They are: AFI 14-202, Volume 1, Intelligence Training; Volume 2, Intelligence Standardization/Evaluation Program; and Volume 3, General Intelligence Rules.

2.3. The MAJCOM OPR for each MDS, weapons system, or intelligence function or activity will also be designated the lead MAJCOM for said system, unit or activity.

2.3.1. AF/A2 is the approval authority for the AFI 14-202 series as well as the MDS, weapons system, or intelligence function or activity-specific AFIs. Per AFI 33-360 AFI's authored in the field must be certified and approved at AF/A2.

2.4. The lead Major Command (MAJCOM) or Field Operating Agency (FOA) will establish and manage guidance and instructions for training, standardization and evaluation (stan/eval), and intelligence operations procedures for intelligence personnel. The lead MAJCOM/FOA will coordinate with users to establish the guidance for intelligence training, stan/eval and operations support for all mission design series (MDS), weapons systems and other intelligence functions and activities. Lead MAJCOMs/FOAs need to be sensitive to the widely varying missions when developing and coordinating publications for each MDS, weapons system, or intelligence function and activity. All MAJCOMs, FOAs, direct reporting units (DRUs) and primary support units (PSUs) will comply. Lead MAJCOMs/FOAs for each new AFI 14-2 are as follows:

   2.4.1. ACC

      2.4.1.1. AFI 14-2A/OA-10

      2.4.1.2. AFI 14-2B-1

      2.4.1.3. AFI 14-2B-2

      2.4.1.4. AFI 14-2B-52

      2.4.1.5. AFI 14-2RC-135

      2.4.1.6. AFI 14-2F-15C

      2.4.1.7. AFI 14-2F-15E

      2.4.1.8. AFI 14-2F-16

      2.4.1.9. AFI 14-2F-22A

      2.4.1.10. AFI 14-2U-2

      2.4.1.11. AFI 14-2E-3

      2.4.1.12. AFI 14-2E-4

      2.4.1.13. AFI 14-2E-8

      2.4.1.14. AFI 14-2DCGS

      2.4.1.15. AFI 14-2ASOG

      2.4.1.16. AFI 14-2Force Protection

      2.4.1.17. AFI 14-2MQ-1

      2.4.1.18. AFI 14-2RQ-4

      2.4.1.19. AFI 14-2Targets/Analysis/ISR Ops

   2.4.2. AFSOC

      2.4.2.1. AFI 14-2AFSOF/Personnel Recovery

   2.4.3. AFSPC

        2.4.3.1. AFI14-2AFSPC

     2.4.4. AMC

        2.4.4.1. AFI 14-2C-5

        2.4.4.2. AFI 14-2C-17

        2.4.4.3. AFI 14-2C-130

        2.4.4.4. AFI 14-2TACC

        2.4.4.5. AFI 14-2KC-10

        2.4.4.6. AFI 14-2KC-135

        2.4.4.7. AFI 14-2OSA

        2.4.4.8. AFI14-2CRG

        2.4.4.9. AFI 14-2AMOS/AMOG

     2.4.5. Air Force ISR Agency

        2.4.5.1. AFI 14-2SIGINT

3. Publications Structure:

3.1. The new standardized AFI 14-2 set includes one basic document with three volumes (AFI 14-202, Vols 1, 2, and 3) and a three volume set of MDS, weapons system, or intelligence function or activity-specific AFIs. The basic AFIs are of higher precedence than the MDS, weapons system, or intelligence function or activity-specific AFIs.

3.2. The 14-202 series AFIs provide guidance to the MDS, weapons system, or intelligence, function or activity-specific AFIs. The basic AFIs are structured as follows:

    3.2.1. AFI 14-202, Volume 1, Intelligence Training. This is the basic intelligence training program, which mandates a standardized intelligence-training program for each MDS, weapons system, or intelligence function or activity.

    3.2.2. AFI 14-202, Volume 2, Intelligence Standardization/Evaluation Program. This instruction establishes the Intelligence Standardization and Evaluation Program (Stan/Eval) that supports Air Force objectives. This instruction will provide guidance on how to structure and monitor the Intelligence Stan/Eval program. It mandates a standardized Intelligence Stan/Eval program for each MDS, weapons system, or intelligence function or activity.

    3.2.3. AFI 14-202, Volume 3, General Intelligence Rules. This instruction prescribes general intelligence procedures and policies that govern how intelligence personnel operate or support MDSs, weapons systems, and other functions and activities.

3.3. Lead MAJCOMs will author and coordinate MDS and weapons system-specific AFIs. MAJCOMs will author and coordinate intelligence function or activity-specific AFIs as required. Implementing directives will use MDS, weapons system, or intelligence function or activity-specific numbering. For example, F-16 publications will be labeled:

    3.3.1. AFI 14-2F16, Volume 1, F-16 Unit Intelligence Training. Institutes the F-16 MDS-specific intelligence training program, to include initial qualification training, mission qualification train-

ing, specialized training and continuation training. This instruction will employ basic guidance provided in AFI 14-202, Volume 1.

3.3.2. AFI 14-2F16, Volume 2, F-16 Unit Intelligence Evaluation Criteria. Establishes F-16 MDS-specific intelligence standardization and evaluation criteria. This instruction utilizes AFI 14-202, Volume 2, as the template to implement and monitor the program.

3.3.3. AFI 14-2F16, Volume 3, F-16 Unit Intelligence Procedures. Establishes F-16 MDS-specific intelligence rules and procedures for intelligence and intelligence support activities. This instruction utilizes AFI 14-202, Volume 3 as the foundation for establishing mission and airframe specific intelligence rules.

4. Publications Supplements:

4.1. MAJCOMs, FOAs, DRUs and PSUs may supplement the basic AFIs. These supplements will not be less restrictive than the lead-AFI. Forward proposed supplements to the appropriate Air Staff OPR for approval.

4.1.1. Limit MDS, weapons system, or intelligence function or activity-specific supplements to unique requirements only.

4.1.2. In order to promote maximum interoperability and standardization procedures, use only the basic MDS, weapons system, or intelligence function or activity-specific AFIs for planning or operations involving composite forces from lead and user commands.

5. Waivers: AF/A2 will authorize waivers to this directive for an essential requirement. Send MAJCOM-coordinated waiver requests by message to HQ USAF WASHINGTON DC//A2//.

6. Publications Development and Coordination: New publications, changes, or revisions will conform to AFI 33-360, Air Force Content Management Program-Publications, and the timeline in Attachment 1.

7. Publications Interface: See Attachment 2 for publications that interface with this policy.

MICHAEL W. WYNNE,
Secretary of the Air Force

GLOSSARY OF REFERENCES AND SUPPORTING INFORMATION

References

AFMAN 37-123, Management of Records

Supporting Information

AFI 14-104, Oversight of Intelligence Activities

AFI 14-105, Unit Intelligence Mission and Responsibilities

AFI 14-117, Air Force Targeting

AFI 14-119, Intelligence Support to Force Protection

AFI 14-201, Intelligence Production and Applications

AFI 14-205, Geospatial Information and Services

Attachment 2

AFI DEVELOPMENT AND COORDINATION

Table A2.1. AFI DEVELOPMENT AND COORDINATION

Type of Publication	Author and Internal Coord 1	Field Coord 2	ACTION (days) AFI Resolution 3	Edit 4	Air Staff Coord 5	Publishing 6	Total
New	45	30	14	10	45	30	174
Revised	10	30	14	10	45	30	139
Change	5	5	5	5	10	5	45

NOTE:

[1] Author and Internal Coordination--MAJCOM OPR determines the need for a conversion or revision (NLT 2 years from AFI publishing date)

[2] Field Coordination--MAJCOM OPR coordinates draft AFI with user commands.

[3] AFI Resolution--MAJCOM OPR consolidates comments and resolves issues. If unable to resolve at MAJCOM level, forward the issues to AF/A2F for ultimate conflict resolution by the AF CFM. A final draft is then published.

[4] Edit--MAJCOM OPR develops the final package and submits it to AF/A2F for coordination and approval. The MAJCOM OPR forwards the final AFI to user commands to begin writing appropriate supplements, as required.

[5] Air Staff Coordination--AF/A2F will coordinate with appropriate offices designated in AFI 33-360. The 45 day period is established for one full edit cycle to input the proposed changes at the Air Staff level.

[6] Publishing--Due to the required submission dates and distribution to the field, the 30 days will cover any CD-ROM cycle as well as paper publication and distribution to the end user.
