Certified by: CMSgt Lawrence H. Ballinger, HAF/A4LR

Supersedes: N/A

Pages: 7

- 1. PURPOSE. This AFJQS identifies tasks and duty requirements for individuals performing duties within an F-35 Traffic Management function. It provides the minimum training requirements for assignment of Special Experience Identifier (SEI) 2BD. This AFJQS will be available in Training Business Area (TBA) and must be used to develop the Master Training Plan (MTP) for F-35 Traffic Management Sections and any Individual Training Plans (ITP). This AFJQS will remain in effect until superseded or rescinded.
- 2. TASK QUALIFICATION. Personnel will be qualified to the GO/NO GO standard for all tasks listed in this AFJQS. GO means the individual can perform/identify the task, without assistance, utilizing appropriate instructions, training references, or other procedural guidance. If the required training listed in Part II of this AFJQS is provided, a supervisor/trainer from the 2T0 functionality will complete the trainer's block to document training completion.
- 3. ADDITIONAL DUTY or TASK. If personnel are assigned an additional duty or task not listed in this AFJQS, the supervisor will develop an AF IMT 797, *Job Qualification Standard Continuation/Command JQS*. The supervisor/trainer will then develop a plan for the UDM to receive training and become duty position qualified.
- 4. TRAINING DOCUMENTATION AND TRAINER/CERTIFIER IDENTIFICATION. Document training required by this AFJQS in accordance with DAFI36-2670, *Total Force Training*. For civilian personnel, document training on Supervisor-Employee-Brief-971.
- 5. This AFJQS has been coordinated with all applicable CFMs. Overall POC for this AFJQS is HAF/A4LR, DSN 224-1278, <u>usaf.pentagon.af-a4.mbx.a4lr-workflow@mail.mil</u>.

BY ORDER OF THE SECRETARY OF THE AIR FORCE
