MEMORANDUM FOR CFETP 2A3X7 TACTICAL AIRCRAFT MAINTENANCE (5TH
GENERATION) SPECIALTY

FROM: AF/A4LM Crew Chief CFM
1030 Air Force Pentagon
Washington, DC 20330-1030

SUBJECT: Air Force 2A3X7 Aircraft Maintenance Chemical, Biological, Radiological and Nuclear
(CBRN) Air Force Specialty (AFS) Specific Task Qualification Training (TQT)

1. In accordance with Department of the Air Force Instruction 10-2501, *Emergency Management Program*, paragraph 2.12., Career Field Managers will identify wartime tasks to be performed and task-certified while wearing MOPP 4 CBRN individual protective equipment. These wartime training tasks are considered task qualification training and will be identified in the Aircraft Maintenance career field education and training plans (CFETP).
2. TQT is training in which individuals perform wartime mission essential tasks in a simulated wartime environment while wearing MOPP 4 CBRN individual protective equipment. The mandatory TQT tasks for the 2A3X7 Aircraft Maintenance AFS are listed in Attachment 1. These tasks are the minimum TQT requirement for that respective AFS. Commanders may identify more wartime training tasks for each AFS in order to meet their mission need. These tasks will be identified on the work center's 797 and that training will be recorded on the 797 in the Air Force approved electronic training record system (e.g., TBA or myTraining). Members previously certified on tasks in Attachment 1 are not required to be recertified. Any designated TF coded unit or any designated test organization is exempt from this TQT requirement unless deemed necessary by the unit commander.
3. Training managers and/or work center supervisors will use Attachment 1 to create an electronic 797 in the Air Force approved electronic training record system to identify the TQT requirements and document that training in each Airman's training record once the training is completed.
4. If you have any questions, please contact the Crew Chief CFM at the AF/A4LM Workflow at AF.A4LM.Workflow@us.af.mil.

ROBERT W. RAFFERTY II, CMSgt, USAF
Crew Chief Career Field Manager

Attachment:

1. Task Qualification Training Requirements

Attachment 1

TASK QUALIFICATION TRAINING REQUIREMENTS

2A3X7 – Tactical Aircraft Maintenance (5th Generation) TQT Requirements

A3.1.18.2.1 Launch

A3.1.18.2.2 Recovery

A3.1.18.2.3 Preflight (PR)

A3.1.18.2.4 Thru-flight (TH)

A3.1.18.2.5 Basic postflight (BPO)

A3.1.18.2.6 Combined BPO/PR

A3.8.2.1 Power off (refuel)

A4.1.9.2 Perform inspections

A4.1.9.2.5 Aircraft dispatch actions (ADA)

A4.1.9.2.6 Aircraft return actions (ARA)

A4.8.5.1 Refuel aircraft, battery power
